THREE HUNDRED DIE IN TYPHOON

ONLY TWELVE RESCUED WHEN STEAMER FOUNDERS

Widespread Damage on Chinese Coast-Houses Blown Down.

Canton, July 28.—The Chinese steam er Ying King, engaged in the local pas senger trade, foundered yesterday durng the typhoon. Three hundred Chi of those on board were rescued.

The Yink King was of 798 tons, 200 feet long and owned in Hongkong. Hongkong Houses Collapse.

Hongkong, July 28 .- As the result of the typhoon last night, which lasted two hours, the steamers Schuylkill, Persia, Powhattan, Lasang, Charles Mardouin and the British torpedo boat Whiting are ashore. An unknown steamer and several lighters foundered. Fifteen houses in the town collapsed. There were casualties afloat, but few among the shipipng as

The public gardens, the chief attractions of the city, were wrecked. The streets are blocked.

FIRE THREATENS MINE.

Blaze in Brechin Tunnel is Extin-guished Without Serious Damage.

Nanaimo, July 28.—Fire for a time last night threatened serious damage to the Brechin mine. The blaze started in the Fan drift, about 100 yards from the mouth of the tunnel, A long alarm was sounded. The fire department with a large number of miners control. The min orked as usual to-day.

ENGLAND'S HOP INDUSTRY.

British Government to Pass Measure to Assist Local Growers,

London, July 28 .- With the view o assisting the local hop industry, the British government intends to prohibit british government interests in all beer brewed in the United Kingdom. A bill to this end will be introduced and pushed through parliament by the government at the autumn session.

DISASTROUS WRECK

ON C. P. R. MAIN LINE

Sections of Train Crash Together-One is Dead and Many Injured.

(Special to the Times).

treat, July 28.-A wreck curred this morning on the C. P. R. a short distance east of Fort William. Two sections of train No. 97 known as 3 and 4 came together and as a result one passenger named James Mc-Cormick, is dead, and several other passengers are slightly injured. The was caused by one of the engineers disregarding signals. His train crashed into the one ahead three the coach into the ditch. Both were of the tourist class and all those killed and injured were Old Country-

ELECTRICALLY TREATED CROPS.

Ottawa, July 28.—Among the letters department yesterday was one from Peter Ball, trade commissioner at

My Ball's last report deals with some negresting experiments which have seen made in Engineer on the sementary beneficial results of electricity as pplied to the growth of farm crops, in the case of Canadian rye fyle wheat the yield per acre was increased from 25 to 35 bushels, whilst the quality was also so much improved as to bring 7% cents per bushel more in price.

LIPTON ENTERTAINS ATHLETES

London, July 28.—Sir Thomas Lipton entertained a party of sixty-five visiting athletes, among them many Americans, on his steam yacht Erin.

The party left London this morning and boarded the yacht at Southampton for a trip around the Isle of Wight, and to view the yacht races going on there. The party will dise aboard the yacht and return to London to-night.

DELAY ON C. P. R.

Wreck of Freight Train Causes Con siderable Damage to Rolling Stock.

Port Arthur, July 28.—A delay of 24 hours to the train service was caused by the derailment of fourteen freight cars east of Schreiber on Sunday formoon. There was considerable damage

QUICKSAND DEATH.

italian Girl Loses Her Life After Pro

New York, July 28.—Entrapped in quicksands in a hole into which she had fallen in her back yard, Angelina Evangeliza, an Italian girl, living on Coney Island avenue, lost her life yesterday after a long struggle in the treacherous sand, in which she was found by three holicomen. One of the treacherous sand, in which she was found by three policemen. One of the patrolmen, Oscar Rothman, was taken to the hospital suffering from exhaustion in fighting the sinking sand to save the girl's life. The girl dled shortly after being drawn from the pit,

PRINCE TO SAIL FROM QUEBEC

nese are known to be drowned, Only 12 H. M. S. INDOMITABLE MAY BE GIVEN SPEED TRIAL

Closing Ceremonies of Tercentenary Celebration-Warship Boat Race.

Quebec, July 28 .- To-day will witness the final ceremonies in connection to Canada. His Royal Highness will

go on board the Extended in the even ing, where he will be present state dinner. From the Exmouth he the ships had been forwarned of the will cross to the Indomitable nidnight, and at 4 o'clock in the morning the "Mystery Ship." escorted by the British warships, will up anchor and start down the river.

parture is due to the fact that the tide. It is said that the speed powers of the new wonder of the British navy will be given a thorough trial on the that she will beat all trans-Atlantic the new giant Cunarders. Since comthe Indomitable has ing into port, taken on hoard the cargoes of two colliers, about 3,000 tons, and it is the er of the fleet where she has

Hard work and dirty work, and no much holiday to it, the tercentena trip has been for the crew of the

With the departure of the Prince the tercentenary celebration is now on the wane. There remain two performances of the pageants, and some inci-dental features for the closing of the festival. The crowds of visitors are out, and the soldiers are de-

parting da/ly.

A magnificent display in the even-A magnificent display in the evening by the combined vessels of the British fleet was the big feature yesterday. Quebec has seen some splendid efforts of this kind before, but this cilissed anything of the kind ever wignessed here. For an hour and a half the warships held the thousands hiff the warships held the thousands and thousands of people gathered on the shore, terrace, fields and water-front on both sides of the river enthrailed in the ever-changing seene, marked by beauty and originality.

The British tars scored a victory over their friends of the French and U. S. navles in the international race for boats representing the three feets.

for boats representing the three fleets on the part of the murderers. They in the regatta held on the harbor yesfor boats representing the three fleets in the part of the interior in the regatta held on the harbor yesterday afternoon. This was the big terday afternoon. This was the big race on a programme of aquatte sports which drew thousands to the terrace and battery, and aroused the greatest interest and rivalry among the sailors interest and rivalry among the sailors in the part of the work in the part of the part o

of the warships now in port. Three crews started, one representing each of the free nations. For half a mile from the starting point there was a pretty even struggle between Britishers and Yankees, with the Frenchmen dropping behind. Then the Britishers region below the form of the Britishers region below the form of the property of the form o side, began to draw away, and steadily ncreasing their lead, completed the hree-mile course, which finished at, the Arrogant, a minute ahead of the U. S. boat, with the Frenchman a close third, twenty seconds behind the sec-

EUROPE'S "SICK MAN" BURST INTO TEARS

Turkish Opinion Now Demanding Clean Sweep of Palace Officials.

Constantinople, July 28.-Though the first rejoicings over the constitution granted to Turkey by the Sultan last week are at an end the people are beginning to discuss the future. They
are clamoring against those big officials who were responsible for the
abuses and injustices of the old regime. Public opinion is demanding a
clean sweep especially of the Palace
officials who are identified with the
days of "personal rule."

The Sultan, it is now known brake

The Suitan, it is now known, broke into tears at the conference on Friday, at which it was decided to grant a constitution. The situation is calmer but disturbances are still feared.

PRAIRIE CROPS ARE BEING CUT

HEAVY YIELD OF BARLEY IS EXPECTED

Wheat Ear Unusually Long and Full-Prospect of Rapid Harvest.

Winnipog, July 28.—Barley cutting reported starting yesterday in many arts of Manitoba and Saskatchewan. Although the acreage in this cereal is restricted, the yield promises to be heavy. Indications are that wheat cuting will be well under way in the ear lier districts of the prairie provinces by the middle of August and will be general by the 20th, with prospects that very little wheat will be left standing by the end of the first week

n September.
The recent weather has been everything required to bring along the grain rapidly, and a satisfactory feature of recent reports is that the wheat ear is unusually long and full this season

Some bad thunder storms, one or two accompanied by hall, took place

on Saturday, costing at least lives and some loss to stock. I far as known the damage to standing loss to the same period a year ago.

DIPLOMATIC RUPTURE WITH NETHERLANDS

Dutch Warship to Remain in Venezuelan Waters-Washington Speculating.

The Hague, July 28,-The talk of ombardment by Holland of any Veneon in Venezuelan waters as Netherlands and the government of President Castro, was to-day charac-terized in official circles as premature. The rupture between the Netherlands and Venezuela, it was explained, was up to the present time diplomatic only.

Dutch Minister's Statement. Wilhelmstad, Curacao, July 27.—M. Dereus, the former minister of the Netherlands to Venezuela, when questioned to-day regarding his dismissal by President Castro, limited himself to saying that during his stay in zuela he was at no time moles the members of the diplomatic corps and the representatives of the Vene-zuelan station were present at the rail-road station at Caracas when he left

Edward and the Emperor, held some time ago. President Fallieres arrived at 3 o'clock in the afternoon on the French battleship Verite, which was escorted by the armored cruiser Du Petit Thouars and the gunboat Cassini, and found awaiting him the principal part of Russia's fleet, including the battleship Slava and Tsarevitch, drawn up in two lines.

The French squadron, by making a sweeping manneuvre around the end of the Russian line, took up an assigned position between the lines, the Verite dropping anchor midway between the Emperor's yacht Standart, and the Dowager Empress's yacht, Polar Star, which by a special mark of favor was assigned to Admiral Toutchard, the French Ambassador to Russia, to be used as his residence, during the interview.

As the French ships swung into place a select of the swenger and the plant of the received at the property of the covered the bay with a pan of the received at the property of the received at the received at the property of the received at the interests of Holland had been confided to the German Jegation. Independence Party Holds Its First National Convention at Chicago.

Chicago, July 28.—Amidst loud and enthusiastic cheering, and with its inembers showing every sign of loyalty to their standard of political faith, the first pational convention of the Independence party was opened at 8 o'clock last night in Orchestra hall. The main floor of the half, in which have been held some of the largest gatherings in this city, was filled by the delegates. There were no alternates. The galleries were crowded with a throng which entered heartly into the spirit of the proceedings, and throughout the session applicated viscorously whatever hief their approval.

The delegates were slow in arriving

The delegates were slow in arriving inside the half, and when the hour arrived for which the convention was to be called to order, not more than a sprinkling of them were in their seats. The weather, which was hot and uncomfortable, doubtless accounted for this. Nevertheless, at 8 o'clock they commenced fromthis into the

they commenced dropping into the hall, New York leading the column.

The delegates from the Empire state carried a white banner, bearing the words "Independence Party." between them, and an evenly balanced scale, signifying exact justice to all. Other delegations carried the national colors. gations carried the national colors, delegations carried the national colors, and they waved them back and forth in greeting as they found their allotted places in the hall. The delegations cheered every other delegation, then themselves, until the hall rang again and again. The demonstration lasted some time after the delegates were in their seats.

their seats.

The entrance of Geo. McCaskrein, whom the Illinois delegation are supporting for the gubernatorial nomination, was a signal for cheers "for the next Governor of Illinois."

next Governor of Illinois."

This outburst had scarcely subsided when the arrival of W. R. Hearst started a delirious demonstration. The editor, wearing a frock coat, bowed right and left as he walked up the centre alsie and ascended the platform. He took no notice of the demonstration, but descended into the body of the hall, taking his seat with the New York delegation, who gave repeated cheers in honor of their leader.

When quiet had been restored Mr. Hearst began his address as chairman

Hearst began his address as chairman of the convention. Mr. Hearst delivered his speech with intense earnest-ness, driving home his points in a manner that carried the ocnvention with him from the start to the close of his address.

After an address by C. A. Wendell, of Chicago, the convention adjourned until to-day at 2 o'clock.

ITINERARY OF LORD ROBERTS. Will Crowd a Lot of Sightseeing Into His Canadian Trip.

Quebec, July 28.-Lord Roberts has quebec, July 28.—Lord Roberts has re-arranged the whole of his pro-gramme for the western trip, and will visit the Rocky mountains. Sir Thos. Shanghnessy has full charge of all ar-rangements.

Lord Roberts will leave Quebec for Lord Roberts will leave Quebec for Montreal on Thursday, July 30. Stopping at Montreal two days, he will then go to Ottawa and Toronto and remain in Toronto three days, August 5th, 6th and 7th, during which time he will pay a visit to Niagara Falls, then back to Toronto, where he will take a special train and travel as the guest of Sir Thomas Shaughnessy to Winnipeg, Calgary and Banff. He will return direct east to Kingston and take a trip through the Thousand Islands, arriving at Quebec in time to sail on the Empress of Britain for England on August 21st.

OPENING EVENTS AT OLYMPIC REGATTA

Canadian Crew Rows Plucky Race—is Defeated by Oxford Four.

Henley, July 28.—The Olympic regatta, the first international regatta, ever held in England, was opened here this afternoon and will come to an end next. Friday with the finals. There have been a number of withdrawais and as a result the racing of to-day was reduced to three heats. The United Kingdom crews were entered for two and each got first place. They defeated the Canadians in both the four-oared and the two-oared races. In the equiling Vonesta of the Viking Club sculling Vongaza of the Viking Club. Berlin, beat Killer, the Hungarian

In the opening races of the Olympic In the opening races of the Olympic regatta to-day the Argonauts were drawn against Magdalen college in the fours, but were beaten by the Oxonions. The Argos made a fine spurt in the last quarter but were beaten by two and a quurter lengths. The Argonaute the Argonauter lengths and the Argonauter lengths and the Argonauter lengths. two and a quarter lengths. The Argonauts steered exceedingly badly from the start. Twice in the first quarter of a mile they nearly ran into the piles. They spurted the whole way, never acknowledging that they were beaten. Magdalen college won easily in 8 minutes and thirty-four seconds. In the first heat in the pairs, Leander beat the Argos. The Argonaut pair ran into the piles near the start and Jacques had to use his oar to shove the boat off.

To-morrow's programme is as follows:

12:30 p. m. Scholes on the Berks side of the river vs. VonGaza on the Bucks side.

collided with his buggy as he was driv-ing along Douglas street, smashing the buggy to pieces and throwing the doc-tor out. He had a rib broken but suf-fered little more.

Mr. and Mrs. Rettallack, of Kasto, were in the city last evening guests at he Empress.

REPORT UPON IRON ORES OF ISLAND

Einar Lindeman, the Expert From Department of Mines, at Ottawa, Gives Comprehensive **Outline of Resources**

The summary report of the mines branch of the Department of mines at Ottawa, has been received for the year ending March 31st. The report contains a preliminary report by Einar Lindeman M. E. upon the iron ore de-Lindeman M. E., upon the iron ore de-posits of Vancouver and Texada Isl-ands. Mr. Lindeman, it will be remem-bered, was visiting the various de-posits. This has been done and a sum-mary of his report and the reasons for the investigation are thus set forth: The high prices of pig iron and other merchantable irons in British Colum-

merchantable irons in British Colum-bia, due to the long hauls necessary to convey these materials from the centres convey these materials from the centres of production rendered it desirable in the interest of the province, to furnish such information regarding the from ore deposits, coking-coal deposits, and fluxes on the Pacific coast—both as to nt and quality as will encourage investment of capital for the ex-

Hitherto, no serious investigations as thereto, no serious investigations as, to the probable tonnage or average quality of the ore, in any of the local deposits, had been made; but judging from the reports of the provincial government, some of the properties on the coast of Vancouver Island and other islands in the vicinity, seemed worthy of special attention.

Mr. Eingr Lindeman—member of the

Mr. Einar Lindeman-member of the staff of the mines branch—was there-fore instructed to proceed to British Columbia, and make an investigation mmercially. In the event of these deterrane found to be suitable. Mr. Lindeman was instructed to make a magnetometric survey of the same. If this and further investigations, furnish evidence of the existence on the coast of extensive iron ore deposits, in comparatively close proximity to an assured supply of fluxes, and of coal suitable for the manufacture of metallurgical coke; all capable of economic transportation to industrial contrast the portation to industrial centres, then invaluable information will have been ndeman's report shows that the ore supply, the deposits

Texada island, at Head bay, Klaach river, and Quinsam river on Vancouver Island, are of sufficient magnitude to furnish ore to a blast furnace for a of years. The coal output of

the collectes on Vancouver Island for 1907, is estimated at 1,325,000 tons, with coke production of about 17,000 tons. The coke contains from 15 per cent. to 16 per cent, of ash; but by a more careful separation of the shale the ash. ful separation of the shale the ash-could be reduced to about 12 per cent. The limestone deposits are of great extent, and unusual purity, hence provide an inexhaustible supply of excellent fluxing material. The deposits

The deposits of iron ore, coal, and limestone, being adjeant to the coast, are favorably situated for transportation; and since navigation is open all the year round, shipment can be made direct to a furnace located anywher on the coast line. As regards material and transportation, therefore, the con ditions for the establishment of an iron industry on the Pacific coast are favorable. The only drawback is that labor charges are higher in British Columbia than in the other provinces of the Dominion. Hence seeing that the mark t in British Columbia for manufactured iron will for years be a limited quantity, and the United States import duty of 44 per ton on pig iron will ren-der exportation to that country doubt-ful, it may be necessary to find a mar-ket for the surplus product elsewhere.

The Report.

The Report.

The report of Mr. Lindeman is as follows:

In accordance with your instructions to make an investigation of the from ore deposits on the coast of British Columbia, with a view to furnishing information for an eventual iron industry, I left Ottawa, June 2nd, 1907, for Victoria, B. C., to get information restricts, bestities of several as a maximum width of about sixty. Victoria, E. C., to get information re-garding localities of reported iron ore occurrences. I desire to express my ap-preciation of the unfailing courtesy of Mr. W. F. Robertson provincial anin-Victoria, B. C., to get information results care fall. The ore garding localities of reported iron ore currences. I desire to express my appreciation of the unfailing courtesy of Mr. W. F. Robertson provincial information in connection with my work.

The ereck forms a water fall. The ore has a maximum width of about sixty three feet on the east side of the creek. On the east side, the ore body is stripped for about eighty feet from the creek to where it runs into the gravel has the contribute of the creek to where it runs into the gravel has the creek to where it runs into the gravel has the creek feet long had been run into

"FRUIT-A-TIVES" LLOWS EVERTONE TO THY OUT
THESE WONDERFUL PRUIT
JUICE TABLETS AT A COST

CENTS.

Put up in 50c. boxes only, "Fruit-a-tives" has in the last four years gained a tremendous and rapidly in-creasing sale, and a reputation for re-markable cures in every part of Can-

THE NEW YEST-

POCKET BOX OF

General Nature of Ore Deposits.

With the exception of the bog iron, ore deposits at Quatsino Sound, and a small deposit of hematite on Salt Spring, Island, which in places seems to change into magnetite, all the properties visited show magnetite. There is, moreover, a remarkable similarity amongst these different deposits of magnetite, so far as geological conditions are concerned. They all are in the immediate

markable cures in every part of Canada.

Duting this time hundreds of people
have been asking for a 25c. box to
try. They have heard of "Fruit-atives," and of the benefit it is giving
to thousands but some people hesitate to pay 56c; just to try a remedy
that is new to them.

It has been found, too, that many
would like to carry a box of "Fruita-tives" in their pocket, so as to have
them handy for regular use, and the
50c, box is too large for that.

To meet these needs we have put out
s new 25c. trial size—a neat, compact
little box that can easily be carried in
the vest-pocket, and which contains
tablets enough to last two or three
weeks—long enough to find out that

the vest-pocket, and which contains fablets enough to last two or three weeks—long enough to find out that "Fruit-a-tives" is the best remedy of the kind in the world.

There is now no reason why every person in Canada who suffers from Constipation, Billousness, Kidney or Liver Trouble, Rheumatism, Sciatica, Neuraigia, Skin Diseases, Indigestion, Dyspepsia or Headache should not try "Fruit-a-tives" and get quick relief and eventually a complete cure. "Fruit-a-tives" are concentrated Fruit Julce Tablets. 25c. is all it costs to test the value of the most successful medicine the contact with it, and occur where it is in close proximity to igneous rocks. The examination of the main geological features of Vancouver Island was made in 1885 by the late Dr. G. M. Dawa-tives" are concentrated Fruit Juice Tablets. 25c. is all it costs to test the value of the most successful medicine eyer produced in Canada. If your dealer figure. On the other hand, they are, as a rule, high in sulphur, though not to

trial size and the regular 50c. boxes, write direct to Fruit-a-tives Limited, Ottawa, Ont., and we will send to you

Head Bay

Head bay forms the upper end of Tlupana arm, Nootka Sound. On ridge running northwest and southeast four outcrops of magnitite can be seen at intervals along a contract of crystal-line limestone and diorite about a mile from the deep water of the bay. These outcrops are from 170 to 200 feet long, and from 40 to 55 feet maximum width. A little farther south, several smaller outcrops were noted, showing that there is, undoubtedly, strong mineralization by fron hear Up to the present time by fron head. Up to the present time no work has been done to show the extent of gre with the exception of one place where some stripping had been done, and an open cut made into the ore, showing the width to be about 55 feet. The ore here is of an excellent character as sample taken, from the open cut long the following analysis: Silica, 6.10 per cent.; iron, 66.17 per cent.; sulphur, 0.017 per cent.; phosphorus, 0.018 per cent.

West Arm Quatsing Sound

The country north of the west arm of Quatsino Sound has during the last few years, attracted much attention, owing to the discoveries at several points of limonite in the form of bog ore. Many of the claims staked do not show any indication which can warrant the supposition that the ore is in commercial quantities, but must be considered as another case of undue promise. ered as another case of undue prominence being given to minute objects.

I wish to mention a group of claim which give the best showings of box waters, five miles west of Coal Harbor ranges of hills adjoining these. ore has been exposed by some strippings and open cuts, and a number of outcrops are also visible in the banks of some small creeks. The ore in these bogs owes its origin to the alteration of iron pyrites, with which the surrounding hills are heavily charged. Although bog ore deposits have been utilized under favorable conditions in certain parts of Capada and other countries; ore has been exposed by some strip width of the ore to be about eighty-two feet. An average sample taken along the tunnel gave the following analysis: Silica, 8.52 per cent.; fron, 56:57 per cent.; sulphur, 2.75 per cent.; phosphorus, 0.121 per cent. parts of Capada and other countries; here, as the overlying soil is in many places quite deep, and the org often mixed with peat, stumps, etc., which must—at least in part—be removed from the ore, economic exploitation is, in my opinion, somewhat doubtful. Whether the extent and thickness of ore would warrant the cost of mininng,

> Average samples of the ore from two locations gave the following analysis: Insoluble matter, 3.32 per cent. and 1.40 Insoluble matter, 3.32 per cent, and 1.40 per cent, iron, 54.46 per cent, and 65.97 per cent,; sulphur, 0.150 per cent, and 0.47 per cent.: phosphorus, 0.035 per cent, and 0.038 per cent.

Quinsam River, he Quinsam river is a tributary to Campbell river, which flows into strait of Georgia at a point about thirty-five miles north of Comox, and directly opposite the south end of Val-der Island. The mineral claims are sit-uated up the Quinsam river, about thir-teen miles with the back. Magnetic terops on the north bank of the river

outcrops on the north bank of the river in a bluff about eighty feet high: Part of the face of this bluff has been stripped for fifty-three feet in width, showing solid magnetite, without having uncovered the contacts with the country rock. About forty feet above the river a funnel has been driven into the hill. tollowing the strike of the ore. The tunnel was sixty-six feet long, entirely in magnitite.

In magnitite.

A sample taken along the tunnel gave
the following analysis: Insoluble matter, 7,00 per cent.; iron, 56,45 per cent.;
sulphur, 0.530 per cent.; phosphorus,
0.014 per cent.; copper, 0.700 per cent.
Another sample taken across the face
of the 100% above the tunnel gave the of the bluff above the tunnel gave the following analysis: Insoluble matter, 11.00 per cent.; iron, 59.77; sulphur, 0.533

copper and iron. On the south side of the river some small outcrops of mag-netite may be seen along the slope, and strong magnitite attraction observed in several places. The deposits being cov-ered with soil, the extent of the ore could not be observed without a more detailed magnetometric study, of which the time did not permit. A few hundred feet farther up this valley a seam of feet farther up this valley a seam of coal outcrops on the north bank of the

The Iron ore deposits which occur on the western slope of Texada Island, from three to four miles north of Gillies bay, have been known for many years, and were taken up for iron mining as learly ag 1875. The principal ore de-posits are on the Prescott, Paxton, and

levelopment, and has during several rears, shipped ore to Irondale, Wash. The magnetite outcrops about 850 feet from the shore, in a big bluff on the brow of a steep, rocky hill, at the conbrow of a steep, rocky nil, at the con-tact between grainte and crystalline limestone. The deposit has been open-ed at three levels. At an elevation of 365 feet an open cut had been made in-to the hill, showing magnitite penetrated by granite dikes. Sulphides of cop per and iron are also common here second level is situated forty has been taken out from an open cut, which shows, now, a face of magnetite forty feet wide and about one hundred feet high.

The ore here includes small patches of catcite and fragments of volcanic cocks forming in paces a species of ore

or cactic and fragments of volcane rocks, forming in places a species of ore breccia. More or less sulphides of copper and fron are also present;

A sample of the ore dump gave the following analysis: Insoluble matter, 8.48 per cent.; iron, 62.57 per cent; sulphur, 6.403 per cent.; phosphorus, 6.024 per cent.

covered by soil, the magnitude of th covered by soil, the magnitude of these deposits could not be ascertained; but the character of these contact-deposits on the borders of the granite indicates the importance of closely examining the contact of the eruptive rocks with of the season, a magnitic survey could not be performed.

The Paxton mine is situated about

3,500 feet east of the Prescott mine. An

tunnel forty-five feet long shows solid magnitite, carrying some sulphides of opper and iron,

A sample taken along the tunnel gave the following analysis: Silica, 4.47 per cent.; iron-64.48 per cent.; sulphur, 1.87 per cent.; phosphorus, 0.602 per cent.; copper, 0.22 per cent. The Lake mine is situated about 1.306

The Lake mine is situated about 1,300 feet to the east of the Paxton. The ore can be traced along the face and brow of a ridge for some 200 feet. The height of the ore bluff is about eighty feet, with a maximum width on the suitance of about 100 feet. Crystalline limestone forms the footwall, and a diorite overlies the ore in places. An open cut had been made in the ore body, showing a good clean magnitite. About 1,000 in the ore small outcrops of magthe river some small outcrops of magthe river some small outcrops of magthe ore ontining the creat of the ridge in a
N. N. W. direction, some outcrops and
surface strippings were noted showing
the ore to be continuous for a distance
of about 350 feet. The ore is generally
free from admixture with country rock,
though containing some sulphides of
copper and iron. On the south side of
the river some small outcrops of mag-

From what has been said, it may b From what has been said, it may be understood that it is impossible from present developments to give actual figures as to the ore in sight, without doing injury to the owners of certain properties; but with a fuller development the better properties should be capable of supplying a modern blast furnace for many years. A well equipped and properly managed plant, using these magnetites, thoroughly reasted. these magnetites, thoroughly roaste could produce a good quality of p iron.

Fuel.

In regard to fuel, the east coast of Vancouver Island has a good supply of coal. The output from the collieries is estimated for the year at 1.325,000 tons of coal. During the year about 17,000 tons of coke were made. The provincing mineralogist of British Columbia reports the coke to contain from 18 per cent. to 16 per cent. ash; but thinks that, by a more careful separation of shale from the coal, the ash could be reduced to about 12 per cent, with very reduced to about 12 per cent, with ver

The limestones frequently met with The limestones frequently met with on the coast are exceptionally pure, and free from deletatious elements, and offer, therefore, a good flux. The supply may be said to be practically unlimited. An analysis made at the laboratory of the department of mines gave: Insoluble matter, 1.0 per cent, iron oxide and alumina. As new cent, calculate the property of the department of the cent, and the control of the control of the cent, and the cent of the cent of the cent, and the cent of the cent, and the cent of bonate, 0.7 per cent.

Transportation. Transportation.

Cheap transporation of the raw materials is one of the most important factors in a successful iron industry. The many inlets which indent the coast and the islands of British Columbia offer great advantage to transportation, as the iron ores, limestone, and coal deposits are situated in nearly all cases close to these navigable waters. Navigation being open the year round, offers still another advantage to the blast furnace man and the miner, saving them from large expenditure in shock. Klaanch River.

Nimpkish lake, which is about fifteen miles long and one mile wide, empties through Nimpkish river into Broughton strait, at a point directly opposite Although the per bay. The Iron Crown mineral claim is situated about seven miles up the Klannah shot, which shows neather west into the south end of Nimpkish lake, an exposure of magnetis the control of the ore gave: Insoluble matter, 1200 for some 180 feet. The height of the control of the cent.

gress and develop unless provided with British old age pension scheme, betrensportation facilities. The result of this hold policy is manifest in the West the diversion of public funds which What Other People Think.

THE WATER PROBLEM.

To the Editor From all accounts, Manitoba and the North

now. I do not think it matters if Sooke lake

avery deller extre in his monthly ac-counts. Such men would have to sacrifice their little garden patch—or go without their baths. The meter system means the curtailment of water consumption by those who need most to have an ample supply, and would four the many for the benefit of the few. The poor man's small garden is as near his heart as the rich man's acre of ground is to him. In Mr. Adams' report, as published in the papers some six months ago, as I re-

the papers some six months ago, as I re-member it, he concludes in words some-thing like the following: "Nothing in this report in any way changes the opinion expressed by me in my former report." What did Mr. Adams intend to convey by What did Mr. Adams intend to convey by this remark? . What was there in the former report that did not agree with the present one? The public should be in-formed on this point. To me it looks as though Mr. Adams intended to say; 'I have given you my best judgment in a former report, but you have not acted up-on it. I now give you the second best, which, while not so good as the first, will still serve, but I wish it to be distinctly understood that, in my opinion, my first

Pending a settlement of the water quesroung a settement or the water ques-tion I would suggest to the city fathers that they stop charging rent for meters through which the water will not run, and that they reduce the fixed charges to those without meters till such time as they are in a position to supply the re-quisite amount of water for domestic

Victoria, B. C., July 28th, 1908.

To the Editor. Tou have always more than polite and fair to the religible of Oak Bay and its council and we hope that even though you and we hope that even though you will still contil

quests are about as reasonable as any requests can be.
Our contention has always been, and still is, that as the city of Victoria possesses a statutory monopoly of all sources from which Oak Bay can obtain a supply, namely of all waters within a twenty-mile radius to the complete exclusion of Oak Bay from any rights whater ver even in the water within its own boundaries, there ought to be imposed on the city of Victoria a corresponding obligation to supply Oak Bay with water "at the city of victoria a corresponding onu-gation to supply Oak Bay with water "at a reasonable price, in reasonable amounts and under reasonable conditions gener-and under reasonable conditions.

ally.

We have never asked for any particular
number of gallons nor for any particular
price per gallon so long as the price is

reasonable.

We have only asked, and this is the essence of our petition, to be treated as nearly as possible as we would be treated if we were within the boundaries of the city of Victoria. We have asked that this obligation should be the subject of an agreement between the two municipalities.

That seems reasonable, doesn't it?
The obligation as above stated was accepted and admitted by the city when the water question was before the executive of the local Mouse this spring.
The executive recommended the city to

DOG BY-LAW IS AGAIN BEFORE THE COUNCIL

Several More Amendments Are Made to Ald. Hall's New Measure.

Ald, Hall's dog by-law received the attention of the city council for an hour last evening and the measure is now fairly complete although it is still in committee stage, and there are some minor clauses to be considered. The by-law was under consideration

ordinary dog.

It was also provided that no one but the owner shall remove a collar or a license tag from any dog.

A proposal by Ald. Fullerton that the license be raised a dollar but that a rebate of \$1 be allowed to any person who paid the tax within a certain time was considered unpracticable by the council, although all were in favor of such a scheme if it could be worked out. These taxes, it was pointed out, however, were due at different times of the year, that is when a man bought a dog or when a pup reached bought a dog or when a pup reached the age of four months as well as on January ist for all dogs owned at that date. It would, therefore, be hard to arrange a plan that would give all who paid the tax when it was due by them the benefit of the rebate.

to rid the city of curs and mon-grels.

The suggestion was adopted, it being pointed out that this would not in any way affect the license of kennels, which allowed of the keeping of ten animals for 110 per year and additional ones at the rate of \$1 each.

Various clauses relating to the im-pounding of dogs, etc., were put through before the consideration of the by-law was adjourned until next week.

NO MORE SWEATING, ACHING

There is foot health and foot comfort in "Foot Elm." It rests tired feet. It saces aching foet. It prevents chafting and bilstering. It reduces swelling of the feet. It cools hot feet. It relieves painful, smarting feet. It cures sweaty feet. It soothes corns and bunions. It destroys all adors of the feet It "breaks in" new shoes. It permits the wearing of a size smaller shoe.

The health and comfort of the feet depend almost entirely on the condition of the skin. If the skin is too dry, is unduly thickened, or so relaxed that perspiration is profuse then fook out for foot troubles. Now "Foot Elm" heals and cures by its antiseptic and tonic action. "Foot Elm" is a white, harmless, odorless powder which destroys germs, four odors and all impurities due to imperfect skin action. "Foot Elm" is the original foot tonic. Be sure you get it and not the "just as good" kind. Zic. a box.

SECOND FISH CASE

IS ALSO DISMISSED

Albert Roberts is Acquitted of

Theft by Magistrate Jay.

The second of the fish-stealing cases was dispused of in the police court yes-terday afternoon, when Albert Roberta, accused by Findlay, Durham & Brodle of the theft of a salmon from their wharf, was acquitted. In dismissing the case Magistrate Jay said that whatever suspicions he might have in the matter he did not see that there

was sufficient-avidence to warrant him in convicting Roberts.

The reason for the prosecution of Roberts as well as of Richard Mathers, who was acquitted of the same charge during the forenoon, was that for some months wholesale thefts of fish from the various firms engaged in the fish husinass have been going on but parthe various arms engaged in the fish business have been going on, but particularly from Findlay. Durham & Brodie, whose looses fit this way have run as high as \$40 and \$50 per day. The plan, it is said, was for the men employed unloading scows to sneak a fish when the foreman was not looking and run un a nalley with it where a China. run up an alley with it, where a Chi man would be waiting to receive it, it may be said were in the habit of giving the men employed about the works a fish when they asked for it. The evidence for the prosecution in

Ald, Hall's dog by-law received the attention of the city council for an hour last evening and the measure is now fairly complete although it is still in committee stage, and there are some minor clauses to be considered. The by-law was under considered in the committee rose and reported progress and will resume its deliberations next week, by when the by-law will be reprinted containing the changes which have been made in it since it was introduced.

Several changes were made last night in the wording of the by-law and some also in its provisions, while some also in its provisions with the domination in the case was adjourned to allow J. A. Alkman, who appeared

limits unless "the dog be attached by some sufficient means of securely holding and retaining the dog." Ald. Hait proposed that dogs carrying a license tag should be allowed to run on the streets in the fire limits during the hours already mentioned but the proposition brought forth strong opposition and the amendment was voted down after some discussion.

One amendment passed last night was that the age of a person who may lead a dog under certain conditions was reduced from 21 to 15 years as it was thought that any one of the latter age should be able to take care of an ordinary dog.

It was also provided that no one but the owner shall remove a collar or a longing to your employers would you like the sufficient of the latter and the la

In cross-examination he denied that he made any remark to Detective Clay-ards and Mr. Schumann as to not hav-

ing been near the wharf.

Magistrate Jay, in summing up, said that while he might have very atrong suspicions about Roberts' guilt, some-thing stronger than suspicion was necessary before he could convict. There was no evidence that a fish had Ald. Norman guggested that the li-necessary before he could convict. There was no evidence that a fish had been stolen from the scow by Roberts, and it was possible that Detective Clayand it was possible that Detective Clay-ards and Mr. Schumann might have been mistaken in the identity of the man they had seen on the wharf carry-ing a fish. The evidence was not suf-ficient to warrant him in convicting in this case, and he would accordingly discharge the man.

LIBERAL MEETING.

The members of the Victoria Liberal Association and support-ers of the Liberal party are re-minded of the meeting of the As-sociation to-night at the Liberal Rooms, 1230 Government street. Rooms, 1230 Government street.
MR. RALPH SMITH, M. P. for Typographical Last Sunday Nanaimo, will be present and de liver an address. All Liberals are Waiters 2nd and 4th Tuesday

Two drunks were fined in the police court this morning by Magistrate Jay.

—A meeting of the labor day general committee of the trades and labor council will be held to-morrow evening for the purpose of receiving reports of the various committees that were appointed at the last meeting. Every delegate to the trades and labor council is a member of the general committee, and is urgently requested to be present so that the committee may be able to make this labor day celebration a grand success.

Mrs. Harry Nash and daughter, of Ed-monton, and Mrs. Fred Nash and son. Frank, of Toronto, are visiting their father, Ged. Lovatt, View street. They expect shortly to be joined by their brother, Mr. Wm. Lovatt, of Burton City, for a few weeks,

REFUSES RIGHT TO

City Council Turns Down Request of Lineham Sand and Gravel Company.

The city council has refused the request of the Lincham Sand & Gravel Company for permission to lay a spur track along Vancouver street from Fort street to View for the purposes of conveying sand, gravel and crushed rocks from Mount Tolmie to the compan's proposed depot at the corner of Vancouver and View streets, over the lines of the B. C. Electric rallway. The streets, bridges and sewers committee report to the city gouncil last night contained a recommendation to this effect, and the report was adopted by the latter body. There were several other important matters dealt with in-the same report. One was the authorization of the renewal for five years of the lease from Josiah Bull of the land surrounding Elk lake, and another dealt with the repairing of the block paving on Johnson and Yates street and of the syment sidewalk on the latter street east of Government street was also authorized. The report in full was as follows: Recommended at Mr. Josiah Bull's Recommended that Mr. Josiah Bull's Recommended that Mr. Josiah Bull's

The report in full was as follows; Recommended that Mr. Josiah Bull's lease of certain isrids bordering on Bile lake be renewed for a further term of five years upon similar terms and condi-lions as those set out in former lesses of

Hone as those set out in former lease or said property.

Recommended that the unanimous re-quest of the property owners on the south side of Cormorant street, between Douglas and Blanchard streets, that the cement sidewalk proposed to be con-structed on said street be laid to a width-of-10 feet instead of 4 feet as proposed, be granted.

Recommended that Mr. Lineham be in formed that the council cannot see their way to grant his request for permission to run a spur on to his property, corner of Yiew and Vancouver streets.

Recommended that the location of the auto stand in Broad street, south of Yates be changed to Broad street, north of Yates street, and that the police be in-

of Yates street, and that the police be informed of such change.

Re application of R. Whitney for sewer
extension, through sub-divisions, 2 and 3
block H. Recommended that Mr. Whitney be informed that as the street through
which he desires the sewer to be laid in
block H is a private one, the council cannot undertake the work at present.

Recommended that the city engineer be Recommended that the city engineer be instructed to remedy any defects in the block pavements on Johnson street, from Wharf to Douglas, and on Yates street, from Wharf to Government, also to repair any holes worn in the block pavement on Yates street, east from Government, with asphalt, and that the cement. sidewalks, where defective street, south side, between

sidewalks, where defective, on Yales street, south side, between Government and Wharf streets, be repaired. Recommended that the portion of Government street, west side, south of Fort street, be gone over and examined, and where any of the carbolineum-treated blocks show signs of decay, the same be replaced.

Recommended that, owing to the condi-

from Government je Douglas street, and that the allotted time of the life of the wooden blocks having expired, the street be repaved, and that the necessary steps be taken to carry out the same under the local improvement system. Recommended that a pipe culvert be constructed under the first Gorge bridge, at a cost not to exceed \$400.

Recommended that a sewer be con-structed on Sumas street. Estimated

structed on cost, \$700.

All expenditures contemplated in the foregoing to be subject to favorable report thereon by the finance committee and adoption of said report by the coun-

SWIMMING EVENTS AT GORGE ON SATURDAY

Saturday next at the Gorge under the suspices of the B. C. A. S. A. the following programme has been arranged.

100 yards for Spencer's challenge cup. 2nd prize medal; 440 yards squadron race; four men; 200 yards for which a trophy may be presented if such can be obtained. There will probably be a series of diving events in which members of the Y. M. C. A. and local swimmers will take part. The Y. M. C. A. will have a water polo against a team from Vancouver if such a team can be procured, and the match will be played within the new lines supplied by the B. C. Electric Company recently and between the water goals recently and between the water goals which are part of the company's do-nation. The preparations for the event are going ahead with the committee in charge of which Ian St. Clair, prestent of the association. The J. B. A. swimmers and the members of the f. M. C. A. will form the principal contingents of swimmers. The man-Friday night to claborate details draw up an official programme.

"WILL FAIRLY FLY" IS EXPERT OPINION

Paul Akoos, Grenfell Indian, is Called a Second Longboat.

A new sensation has been sprung

iwest. is another Longboat an named Paul Akoos; from the Crocked Lake Indian reserve, in Saskatchewan, and he displayed his wonderful run-ning ability recently by capturing the 10-mile championship of Saskatchewan

at Regina in remarkable time.

A letter received says that Akoos, known as the Grenfell Indian, is one of the greatest athletic finds of the sea-

athletic meet at the exhibition, where athletic meet at the exhibition, where he finished first in the three-mile race. He won in easy style, but was placed fourth because in the scaled handicap he was placed on scratch.

One remarkable thing about Akoos is that he runs in moccasins. It is said that when Akoos with on the miletal that when Akoos with on the miletal.

that when Akoes puts on the spiked shoes and places the moccasins on the shelf he will fairly fly. It is the inten-

THE ROD.

TOOK SPRING SALMON, TOOK SPRING SALMON.

Two fine spring salmon were captured in Saanich Arm the other day by Captain Combe, of the cable ship Restorer. A number of other boats were out, but the captain was the only fisherinan to meet with success. He is the luckiest of all Isaak's disciples in this neighborhood. The fish are not runting very freely yet.

ENGLISH CRICKET CAPTAINS

Their Little Idiosyncrasies When Playing.

Although the captain of a county cricket team is not possessed of auto-cratic powers like the president of a variety boat club, he is nevertheless a most important person in the world of sport, and county committees, if they are wise, which, unfortunately, is not always the case, allow him to have a voice in the selection of a team, and never on any account interfere with a voice in the selection of a team, and never on any account interfere with his management of the eleven on the field of play.

There are at the present time sixteen counties engaged in the championship tournament, and the sixteen gentlemen who lead them to victory or defeat, as the case may be, include some of the best known cricketers in England.

Oldest County Captain.

The oldest county captain in England, both in regard to years and length of service, is Lord Hawke, who has led Yorkshire for twenty-five years; the youngest is T. E. Manning, of North-amptonshire—the babies of the competition—who only took—over the reins

Hawke than to any other player of the present generation, and there is no more popular captain in England to-

of course, a strict disciplinarian on the field, but off it he is the friend as well as the leader of his men. It is said that this will be the last year of Lord Hawke's captaincy, and it will certainly be a fitting wind-up to his captain of Yorkshire win the championship again. As captain of Yorkshire Lord Hawke takes his cricket seriously indeed. It is the game and nothing else.

His Special Song. It is a different thing, however, when he is a member of a touring side or a holiday team. On these occasions he

holiday team. On these occasions he is in great request as a vocalist. He has one special some that the old home is haunted," with which he can bring tears to the eyes of his audience. Only one man has ever had the temerity to criticise Lord Hawke's singing, and that is Yorkshire's other captain, the Hen. P. S. Jackson, but then Mr. Jackson criticises most things.

The next beat-known'captain to Lord Hawke is undoubtedly P. F. Warner, of Middlesex or "Pium," as he is catted by every visitor to Lord's. His harded he was the most familiar headsear in the cricket field, and very few people have seen him without it.

There are few keener cricketers than "Plum," and certainly none with a greater knowledge of cricket history and statistics. He has played cricket in every quisiter of the globe, and has written enough books on ericket in strange lands to fill a small library.

strange lands to fill a small library.

His Only Fafling.

His Only Falling.

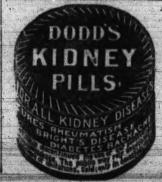

It is said fielding is his weak point;
but he seldom drops a catch, and his
only real failing is that he is a trifle
slow on his feet. When in the field he
has a quite unconscious habit of hitching up his trousers after the delivery of
every ball.

H. D. G. Leveson-Gower, the lates captain of Surrey—to deal with th captain of Surrey—to deal with the peculiarities of all of them would gi's a small volume—is another old Oxonfan, whose diminutive stature and general perky appearance have earned for him the nickname of "Shrimp."

He is perhaps the most restless crick-ster alive, never being still even for a second. His characteristics are grit and determination; he never knows when he is beaten, and what is better still, he imbues his team with the same spirit. He is also the sworn foe of all draw. In his opinion matches are mad to be won-or lost—and so he neve countenances anything like waste o time, even when a little judicious loit ering might save his side from defeat A real sporting captain, his succession to the Surrey leadership has done much to brighten cricket at the Oval.

Gilbert L. Jessop, the captain of Gioucestershire, is as good a judge of a run as he is of a limerick, and that is saying a great deal. There is no keener player between wickets, ar although that swift return of his fro

Fame as a Golfer.

any people are of the

same opinion.

Perhaps, with the exception of Lord Hawke, there is no county captain who has a greater hold upon the affections of his team than E. M. Sprot, of Hampshire. It has been said that he does not play with a straight bat, but he gets plenty of runs, and has professionals idolize him. What more can a county captain desire? His great hobby in private life is billiaged. in private life is billiards, a game at which he is certainly extraordinarily

which he is certain, skilful.

H. F. Foster, of Worcestershire, is the second of the most famous brother-head of athletes that this country has produced of recent years, worthy to rank with the Lytteltons, the Studds, the Lucases, and the Walkers of the mast.

the Lucases, and the Walkers of the past.

Like his brothers, W. L., R. E., and the rest of them, the Worcester captain is a marvellous all-round athlete, his quick eye and flexible wrist enabling him, to excel at any ball game. He is perhaps the soundest batsman of all the brothers, and his courage, if not his discretion, is proved by the fact that he has been known to field silly point to Mr. Jessop.

For many years he held the championship at racquets, and there is one particularly effective stroke which he has brought from the court to the cricket field.

C. H. B. Marsham, of Kent, is a much finer cricketer than his modesty would

finer cricketer than his me ner cricketer than his modesty would have us believe. During the last few years he has been somewhat overshadowed by the brilliance of his cell-leagues, but with so many of them falling this year his opportunity has come at last, and ite has taken to making hundreds himself.

The Youngest County Captain.

There are plenty of other captains, county and club, including his highness.

county and club, including his highness the Jam Sahib, "W. G." and C. B. Fry, but their little peculiarities ar-too well known to need recapitulation

here.

There is one, however, who deserves a paragraph all to himself, and that is T. E. Manning of Northamptonshire, the youngest and merrlest of all the county captains. There is nothing he appears to enjoy more than fielding on ing of catches by members of his own

He is also the only man who has ever He is also the only man who has ever been known to smile and thank the umpire when given out "the" from a ball which takes the bark off his left elbow. Despite his idiosyncrasies, how-ever, he is a keen captain, a good crick-eter, and a thorough sportsman.—F. T. P. in the London Mail.

THE THORNY CROWN OF THE ATHLETE

ing overdone. We read more eagerly of a contest at the Olympic games th of a thrilling pageant at Quebec, and if a Canadian should again win the Mara thon race there is grave danger of the youth of this country becom ed with the idea that ability to success. fully imitate a trotting horse is to be preferred above rubles. Though it may seem treason to say it, perhaps we should be none the worse if Longboat et al., should fail to supply young Canada with further inspiration in this di-

The Long Distance Craze Since the long distance craze struck Canada there can be little doubt that many young men have shortened records by seconds at the price of shortening their lives by years. Even young ladies have surrendered to the mania, and have participated in more or less trying pedestrian contests. Mere children are to be seen running along the streets, their frail bodies bathed in perspiration, their eyes fixed and glassy, and their thumping hearts cheered and sustained by a hope of running two miles a minute faster than the distressed competitor who labors behind. There is the comic side to the alarming aspect—the bones twisted, the sinews wrenched, the heart enlarged and the lungs accorded. Many a weakness that manifests itself later in life will be traced back to some piece of boyish many young men have shortened re

traced back to some piece of boyish over-exertion that was considered sport

Fame as a Golfer.

The Agony of Record-Breaking.

The champion athlete does not have to wait for the protest of outraged abilities and the eurious attitude he adopts at the wicket, which causes him to be known as "The Croucher," are also noteworthy characteristics.

A. O. Jones, of Notts, has been described as the best fieldman in England, and the praise is scarcely an exaggeration.

Despite the misfortunes of his team in Australia, which were in a great it resure due to his own illness, Mr. Long, is che of the best captains in England, being a particularly clever manager of bowling.

His clever working of Hallam and Wass had a great deal to do with Notts winning the championship last season with only two bowlers. In his younged days he used to be a great Rugby football player, and there is nothing he sandys more new-a-days than referencing in one of the big malches. The South African footballers considered him to be the finest Rugby referee the mist for the protest of outraged in which the country is nature. The Agony of Record-Breaking.

The champion athlete does not have to wait for the protest of outraged and the head of the hope and the hipse head to the hipse such ordeal. A case in point is that of Lou Scholes, the Toronto sculler, who was ware and an according to his own statement, he last part of his killing journey, Kelly, his chief opponent, was lifted out of his chief or active service. The last part of his killing journey, Kelly, his chief opponent, was lifted out of his day the used to be a great Rugby football player, and there is nothing he sandy he used to be a great Rugby football player, and there is nothing he sandy he more new as all so constituted that recollections of pain into the various ships. In this way will be provess of Canadian schillers against the world.

A Madman's Race,

Sherring, the Marathon winner, admits that in a race of tible kind the

A Madman's Race,
Sherring, the Marathon winner, admits that in a race of this kind the
runner goes on his nerve after the
first ten miles. During the last five
miles he is a madman, driven desper,
ately on by the conviction that to be
overtaken means annihilation. It is
within the mark to say that the last
hindred steps of the journey cause as
much suffering as would ari equal number of lashes with a whip. In discussling the grind of honor, as the Detroit
News-Tribune calls it, that journal
mentions the case of one Roseth a
Wisconsin footbalt player, who in a
game against the University of Michi
gan, in 1995, "ataggered about the field
literally a madman." In the Intervals
he would not lie down to reat, knowing
that he could never get up, and so he

ept to his feet, reeling as though inoxicated, but gathering himself to-other for a terrino effort when play

The Pace That Kills.

The last Yale-Harvard boat race provided a sight that will not soon be forgotten by those who saw it. Yale lost, and passing the last flag three minutes and a half after Harvard, every one of the eight trained athletes, his nerves shattered, wept aboud. The stroke collapsed, almost lifeless, on his oars, two lapsed, almost lifeless, on his cars, two others were in nearly the same plight, and the rest fell asleep where they sat. The winners were so weak they could not lift their oars out of the water. The defeated pugilist in the old bareknuckle days was not punished more terribly than the modern amateus, athlete, will punish himself to win some event for his college, his form or his college, his form or his event for his college, his town, or his country. At fact, the nearer a man will come to suicide, the more successut will be be as an athlete, and the

The Modern Flagellants, The Modern Fingellants.
To inflict punishment is the principle
at the bottom of athletics, but because
it is self-inflicted we praise it, and make
a rather curjous distinction between a
man who willingly half kills himself in a race, and a man who willingly is half killed in a prize fight. Yet we smile or shudder pityingly when we read of the old flagellants, who scourged themselves for the sins of others. It is doubtful if the purpose of the modern stillets is so prajectory. thletes is so praiseworthy, or results more general good.

HOW CANADA CAN HELP IMPERIAL NAVY

Should Train Volunteers Who Might Be Needed for Service Any Time.

Among the British naval men now at Quebec are 128 officers and men of the Royal Naval Volunteer Reserve, who are taking this trip to Canada in the course of a six weeks annual training. They are distributed on the Arrogant, Albermarie and Venus. The officers are Lieutenant Simond, Lieutenant Ginman, Sub-Lieutenant Goodheart, and Lieutenant Rennie. In the course of a conversation with these officers, it was gathered from them that this detachment of the Royal Naval Volunteer Re-

Statistics of pig from production as compiled by the Iron Age indicate that there is a disposition to increase operations during the second half of 1908, the number of active furnaces on July 1 showing an increase of 12, while active capacity ross from 258,284 tons weekly to 284,682 tons on June 1. The total yield in June was 1,088,634, a daily average of 35,287 tons, against 1,165,685 tons in May, an average of 37,403 tons daily. Output during the first half of 1908 was about 6,900,000 tons or scarcely more than 50 per cent of the record-breaking production during the first half of the previous year. A better more than 50 per cent of the record-breaking production during the first half of the previous year. A better showing is spected in the last half of the year. Current trading is quiet, transactions being few and of no size, but prices are fairly steady. More or-ders for steel bars raised the season's aggregate to a good figure, and it is evident that makers of agricultural implements and carriage builders look for a getive business. There is more work at railway repair shops, but no new contracts for steel rails.

A London coroner recently stated that he did not believe that 30 per cent of the people who committed suicide were really

GRAIN MARKET.

(By Courtesy F. W. Stevenson).

Chicago, July 28.—Wheat—A leader in the local wheat trade announced with a great deal of confidence that he believed the low point on wheat had been reached. There are a number of things in the situation at the close to-day which might fustify such a prediction. The day started with a decided weakness because of very sick Liverpool cable, due to beginning of harvest is the United Kingdom, free Argentine offerings and better crop reports from this side. Decided favorable conditions over the spring belt, normal testiperatures and a far amount of scattered rainfalls. There was gradual recovery in prices late in the session and in the end the net loss was only one-quarter of a cent on September and a shade less than a quarter for December. Just before the close New York wired that export thus ness in all positions would reach \$2 loads. There is a lot of merit in this wheat at the decline but we would like buying orders on fair breaks.

Corn—The mainstay of the cornmarket of late has been the very stiff cash prices based on good shipping and consumptive demand. Naturally it took the breath away from the trade this morning when it was found that practically all the cash houses were active on the selling side of September corn. Weather conditions over the entire beit continue almost perfect.

Oats **Prices provid something of a surprise for the trade, as there was an upturn in the July price at one time for the selling side of the continue almost perfect. (By Courtesy F. W. Stevenson).

CHINA'S POSITION. Sir Robert Hart, inspector-general of the maritime customs of China, a post he has held since 1863, was the guest of the China Association at a dinner held in London on July 7th, Among other things, Sir Robert Hart said China hadin London on July 7th, Among other things, Sir Robert Hart said China had been for many cycles living her own quiet life in a state of seclusion from the rest of the world, and she had been developing in a sort of family circle. But that development, although supposed to be death by some had been full of life, and he was quite sure that the events of the years that were to come would show that energy and virtue that the events of the years that were to come would show that energy and virtue to the company.

The provincial government having been brought into this question some her was not in association with the rest of the world; but now foreign intercourse had been commenced and extended, and treaty relations had been established and developed, and new problems were to be met. China was preparing to face those problems and was planning for the future. What that future would be it was impossible to say, but time would tell. The time of transition might be long—both accidents and mistakes might have the effect of checking progrees but her feet o

NEW YORK STOCKS

(By Couptesy F. W. Stevenson).

New York, July 28.—Although Erie and metal issues were stronger and higher, the balance of the list was for the most part irregular and display, ed signs of distribution on a good scale. Report of the Steel corporation for the jast quarter was a subject of much comment and the fact that the steel issues were particularly strong would seem to indicate that the earnings will at least be over \$19.000.000. Mr. Tat'ts letter was conservative and fair. A great many traders have been expecting a recession but the setbacke have not up to the present time been

WHAT OTHER PEOPLE THINK ON THE USUAL TOPIC.

To the Editor: The Colonist this morning demands that your correspondent who asks it questions either write over his own signature or send his name in confidence to the Colonist. In my humble opinion the Colonist is mutty" over the question of people writing to the press over their own signatures and the desire to have them do so is only due to indolence or lack of ability of the editorial staff. Anyway I don't see why I should disclose my name.

urging the acquiring of the Goldstream property and expressing a desire to discuss the matter openly and fairly, should not hasten to answer to the best of its ability, the questions I asked.

Many people on the street corners argue that Goldstream is worth buying even if Victoria paid a large price for it, and the Colonist should be ready to give data on this head and should spread itself in telling about the improvements made, elevation, moneys expended to prevent surplus water running to waste, etc.

Then the Colonist ought to be in a position to give the rate-payers good-hint whether the shareholders are anxious to come to terms with the city, especially if there is likelihood that in the extent of the city not acquiring Goldstream holdings would be of little value to the company.

The provincial government having been brought into this question some-how, just how I am not clear, it would be pertinent by know the assessed value placed on this property.

I fear the Colonist has unintentionally made a good many of our visitors go away with the table impression that if we do not acquire Goldstream that Victoria is a good place to atay away from an account of link of water supply.

I hope the Colonist will give the pub-

MANY MATTERS OF ROUTINE UP

COUNCIL DEALS WITH VARIETY OF SUBJECTS

Number is Unusually Large and of More Than Ordinary Interest.

An unusual number of matters of routine came before the city council at the regular weekly meeting last night.

A. T. Goward's letter saying that the council permission to allow the B. C. Electric Company to locate its waiting Electric Company to locate its waiting room at the Willows on city property during the will of the council was satisfactory, was filed, while his request that the council forego the usual thirty days notice in regard to the line to Ross Bay cemetery was granted, Christian Sivert, secretary of the Trades and Labor Council, forwarded a schedule of wages to be inserted in all city contracts and it was referred to the streets, bridges and sewers comto the streets, bridges and sewers com-mittee.

mittee.

Beaumont Boggs will be informed that Mayor Haft, who has in hand the matter of removing his ground of complaint regarding the sewer pipe through his lot, will be home in a few days, after which an immediate settlement of

ter which an immediate settlement of the question may be expected. 'Dr. C. J. Fagan, secretary of the B. C. Anti-Tuberculosis Society, wrote asking the city to place at the society's disposal the \$1.000 granted for purpose, He informed the council that nine of the fatients now in the sanitarium at Tranquille were from this city. The letter was referred to the finance-com-mittee.

manager of the B. C. Land & Invest-ment Company, informing the council-ths the will of he late James Craw-ford contained a bequest of \$100 for the Old Men's home was received with

A. J. Brace's request for a grant of \$200 to the funds of the Y.*M. C. A. was referred to the finance committee for favorable consideration.

C. C. Pemberton, secretary of the Nathe destruction by vandals of the nathe destruction by vandals of the na-tive trees of this province placed in Beacon Hili park by the society and asked whether the council in future would undertake to protect such trees after they were planted. The letter was referred to the parks board. H. L. Salmon drew the attention of the council to the lack of public urinals and pointed out the prevasity for them

and pointed out the necessity for them in view of the large number of visitors in view of the large number of visitors, to the city during the summer months.

Ald. Fullerton said he thought the people knew the position of the council on this matter. While the council were alive to the necessity of such things the city was at a loss for sites for them. A request for permission to eatablish one in the post office building had been refused by the government. Plans had been drawn in 1905 but on account of the lack of a site and the account of the lack of a site and the cost nothing further had been done.

Mr. Salmon's letter was referred to the streets, bridges and sewers committee.

Major A. W. Currie's request for a grant of \$200 to the Fifth Regiment

grant of \$200 to the Fifth Regiment Rifle Association to enable it to send three men to Ottawa to take part in the D. R. A. matches in addition to the three who had secured places on the team, was referred to the finance com-

A bill from the Melrose Company, agents for Lloyds' Plate Glass Insur-surance Company, for \$30.40 for a win-dow in the Atlantic hotel broken by a

In my humble opinion the Colonist is "nutty" over the question of people writing to the press over their own signatures and the desire to have them do so is only due to indolence or lack of ability of the editorial staff. Anyway I don't see why I should disclose my name.

Nor do I see why the Colonist, after urging the acquiring of the Goldstream property and expressing a desire to discuss the matter openly and fairly, by-law.

streets had been received. The report was fined and the city solicitor instructed to draft the necessary by-law.

Smitsay Inspector Lancesser encouncil of the council of t

The finance committee recommended payments totaling \$8.319.15, and also that Rev. A. E. Roberts be informed that the council could not entertain his request for a remission of the sewer frontage tax on the Victoria Methodist church. The tax was therefore due and collectable. The report was adopted.

Ald. Henderson's motion in favor of the undertaking of the following local improvement was carried:

Permanent sidewalk on the south side of Pandora street from Elford street to Stanley street, and on both sides of John street from Government street to Pleasant street.

In connection with this resolution

street to Pleasant street.
In connection with this resolution Ald. Fullerton inquired what had been done about Hulton street, the owners on the east side of which had petitioned for a sidewalk two months ago. The council had passed upon a sidewalk on the west side of the street and work on it would soon commence. Both should be done at the same time. Ald. Henderson will look into the matter before next week.

ATTACK MADE ON THE BYLAW

RENDELL'S CASE WAS CALLED THIS MORNING

Point Raised That Meaure is Ultra Vires of Council.

The hearing of the charge against J.

played, and there were a good number of men in the room. Acting Sergeant Carlow accompanied him twice, When he found Rendell in on the second occasion he visited the place, he called his attention to the fact that he was violating the law, but Rendell said he was going to fight it. Rendell also reald it was being run for charity and the proceeds were for the Royal Jubilee hospital.

Mr. Hanley asked if the directors of

Mr. Hanley asked if the directors of the hospital had given authority for it and Rendell said no.

Cross-examined by Mr. Lowe witness said he could not prove that the proceeds were not going to the hospital but he added: "I doubt it."

Acting Sergt Carlow's evidence was corroborative of the previous witness.

mittee.

A bill from the Melrose Company, agents for Lloyds Plate Glass Insursurance Company, for \$30.40 for a window in the Atlantic hotel broken by a city workman during the progress of the paving work on Broad street, was referred to the city engineer for report.

William Nell's request to know what the city was going to do about the paving to do about the corner of Fort and Quadra streets, was referred, along with the previous petition, to the sanitary inspector for report.

F. B. Rendell wrote that the portion of the Places of Amusements by law, generally known as the Sunday Closing by-law, to which he and other petitioners took objection, was that where tioners took objection, was that when the tioners took objection was that we really a double offence. The by-law alluded to the offence for keeping a billiard or pool room and only in the disjunctive sense could an information be laid.

There was nothing to show that the

its way clear to in any way amend the hy-law.

A report from the water commission or that the cost of nine test holes be tween Goldstream and Sooke, ranging in depth from 200 to 1,000 feet, the total foot.

The city assessor reported that no petitions against the block paving or power given the council to close these latter. In support of this he cited the case of Hayes vs. Thompson, when the first grown of the council streets had been received. The report was filled and the city solicitor instructs a did to draft the necessary by-law.

Inspector Executive Contended to councils. The status of the council power to close sactor in support of this he cited the case of Hayes vs. Thompson, when the power of closing licensed premises was limited to saloons only. The by-law, Mr. Lowe urged, was ultra vires of the council.

Mr. Moore, in reply pointed out that Rendell was charged with keeping where playing was alprosecution to disprove that. Mr. Lowe contended that the by-law passed the ships, neither of the powers given to councils. The statutes in the draw for this gave the council power to close satisfactors or billiard roms. There was no power given the council to close these latter. In support of this he cited the case of Hayes vs. Thompson, when the chief justice in 1803 had held that the power of closing licensed premises.

TENNIS GAMES DRAW A CROWD

VICTORIA GIRL BEATS ONE FROM VANCOUVER

Kirk Had the Best of Bell-Kirkbride and Miss Pitts Win Double.

The twenty-first annual tennis tour

nament for the championships of Bri-tish Columbia opened this morning on ladies' singles between Miss Gillesple and Miss Jukes, of Vancouver, the England, and Bell, Victoria. The courts have undergone a thorough preparation during the past week, and are how in fine condition. The marking is correct and the work of the roller is apparent in the even surfaces displayed. This morning, however, courts Nos. 1 and 2 were suffering from the wetting of yesterday, and were at the opening this morning soft and playing slow. This defect will, however, be speedily remedied after a day's sun, and tomorrow morning they should all be fast enough to suit the most ambitious. There are two or three dark horses that are going to cause trouble to the experts, one in particular being a merry perts, one in particular being a merry perts, one in particular being a merry young gentleman from the home of the bean. This young Bostonian, by name Nyles, showed in an exhibition match with Remington this moraing, and if he playes his matches in the same style will upset many early calculations. Another man who displayed more than ordinary ability this moraing was Kirk, who put Bell out of humans and the same style. The hearing of the charge against J. Rendell, of keeping open his billiard froms on Sunday in defiance of the new city by-law came up this morning in the police court. The defendant was represented by R. C. Lowe, while H. W. R. Moore prosecuted on behalf of the city.

The charge spacifies Sunday, July his thin, the first Sunday after the new by-law came into effect, as the date of the offence.

The charge spacifies Sunday, July his thin, the first Sunday after the py-law came into effect, as the date of the offence.

Mr. Lowe raised the point after the prosecution had been heard that the by-law was ultra vires on the ground that the statutes gave the city power only to pass regulations in the case of billiard and pool rooms and not the power to close them even for a day. Magistrate Jay will consider the authorities quoted and adjourned the case until Thursday next.

For the prosecution, inspector Hanley gave evidence that on the Sunday in question he had entered Rendsil's pool rooms without any hindrance or objection being raised, on six occasions, from 10 in the morning until 10:30 at night. The rooms were open just as on any other days. On several times while he was in, pool was being played, and there were a good number of many of men in the room. Acting Sergeants C. Carlow accompanied him twice, When The found Rendell in on the second oc
The charge spacifies Sunday July who is charged the city.

Another man who displayed more than ordinary ability this morning was Kirk, who put Bell out of business in two straights, winning by 6-2, 6-4. He.

Alther spaces was straight winning by 6-2, 6-4. He.

Alther spaces was straight winning by 6-2, 6-4. He.

Alther spaces was straight winning by 6-2, 6-4. He.

Alther spaces was straight winning by a space will alther straight winning the straight winning the straight winning to of the offence.

Mr. Lowe raised the point after the prosecution, and with a strong tenning and will a straight winning by 6-2, 6-4. He.

Alther spaces was straight winning by 6-2, 6-4. He.

Al with the exception of perhaps two games in the second set, played winning tennis all along, and with a strong cross corner stroke puzzled Bell repeatelly. His line play was also a near approach to the classic, and his next game will draw a crowd. Bell, who it considered one of Victoria's good players, was clearly not in his best form, but he was, nevertheless, not in the same class as shown by his opponent, Miss Gillesple, by pretty play and accurate placing, won a winning match all the way through this morning from. Miss Jukes, of Vancouver, and although it is not at all likely that Miss

Miss Jukes, of Vancouver, and al-though it is not at all likely that Miss Gillespie will run up into the semi-finals, she will still be a worthy oppon-ent to Miss Pooley, with whom she is down to play next in the draw. The first game went to four deuces, and then to Miss Gillespie, who succeeded then to Miss Gilleaple, who succeeded in keeping her opponent down to two games in the first set, winning by a score of 6-2. The second set resulted more evenly, although the winner was not troubled to any great extent, and finally won out by 6-4. She plays with about equal facility all over the court, Her strokes are, however, irregular, and she has not that command over the hall which green to the medicard over the and she has not that command over the ball which goes to the making of a champion. Miss Gillespie would nevertheless prove a very useful partner in mixed doubles, and would go far to winning matches in this regard. In the mixed doubles for this tournament she is partnered with the dark horse Gillatt, and in the ladies' doubles will play with Mrs. Burton.

play with Mrs. Burton.

Miss Pitts and Kirkbride won rather easily in the first match of the mixed doubles from Piggott and Miss Mara, although 'neither of the winners exhibited the signs that go to the making of champions. Kirkbride played his usual sure game without brilliance, and was in the second set poor at the net. His placing on the whole was good, although he lacks a hard and fast stroke Miss Pitts game varied. At times it was good, while at others the lady player was wild and irregular. There were several double faults to her side of the score. The result of the match was 6-0, 7-5.

Rithet was down for a single with

Rithet was down for a single with Remington, of Tacoma, which went by default to Remington.

reany a gounte orience. The by-law alluded to the offence for keeping a billiard or pool room and only in the
disjunctive sense could an information be laid.

There was nothing to show that the
games were not being conducted for
charitable purposes. It was up to the
prosecution to disprove that, Mr. Lowe
contended that the by-law and the prosecution to disprove that, Mr. Lowe
ladies' doubles Mainland championindies doubles maintaid champion-ships, neither of these ladies are down in the draw for this afternoon however. The principal games being played this afternoon are the single between the Englishman Gilliatt and the Bostonian Englishman Gilliatt and the Bostonian Nyles, and Schwengers and Poeley against Remington and Laird. Bruce Smith and Mrs. Langley against Meredith and Miss M. Pitts is another match for this evening that will prove a draw. The attendance this morning was good, and many lookers on of both seven were present.

PURITAN BRINGING

CARGO OF TAR HERE

Steel Ship Leaves Boston Shortly With Unique Freight.

The four-masted steel barque Puritan is due to sail from Boston this week with 12,300 barrels of tar and pitch for Victoria and Vancouver, probably the largest cargo of its kind ever carried in a sailing ship.

It is understood that the Puritan will unload most of her, cargo at Vancouver, although the sailing lists in marine journals have placed Victoria as her destination.

DRASTIC MOVE BY THE C. P. R.

ROYAL TO BE TAKEN OFF TRIANGULAR RUN

Will Provide Direct Opposition to Iroquois at Cut Rate.

The C. P. R. to-day announced that ommencing on Monday next the teamship Princess Royal will be placed on the Vancouver and Scattle two ports only, and that the fare willwas not altogether unexpected as the Inland Navigation Company has been reaping the benefits of the C. P. R.'s cut rate from Seattle to Vancouver. cut rate from Scattle to Vancouver, bringing back large crowds on the Iroquois that were taken up on the Royal. The weakest point of the C. P. R.'s conduct in the war has been its failure to provide opposition on the return run from Vancouver but, owing bearon. A reluctant to take the Royal off the triangular run, the opposition company has so far had a sinecure on that

The withdrawal of the Princess Royal from the triangular run will be felt in Victoria as there will be no afternoon boat to Seattle and no boat from Vancouver in the afternoon. It is generally understood ally understood, however that the C P. R., since it went on the aggre P. R., since it went on the aggressive a few weeks ago, with a 25 cent cut in the Seattle rate, has been planning to force the rate war to a conclusion. C. E. E. Usher, assistant passenger traffic manager of the C. P. R. a western lines, is at the Empress hotel. He stated to-day that he was not able to discuss the rate war. discuss the rate war.

Up to the present Joshua Green, president of the Inland Navigation Company, has been unable to make any definite announcement in regard to the long-promised opposition service to Vancouver.

Reports to the effect that Mr. Green bring around the continent than she would earn on the Vancouver run at cut rates in a year.

Mr. Green has now the Bellingham ex-Willapa, ex-General Miles, to fall back upon as the steamer for the run. While he has so far been unable to place a boat on the run it appears certain that he will do so if circumstances allow

BIG LINER DELAYED BY THE GULF STREAM

Warm Current Knocked Off Nearly a Knot an

Hour.

During the last westward voyage, of the Deutschland, of the Hamburg-Am-erican line, which arrived at New York a week ago, from Hamburg, Southamp-ton and Cherbourg, the unusual force of the Gulf Stream set the ship back hearly seventy knots in three days, and Captain G. Kaempff, her commander, stated that he had never before in 189 round trips as master "ound the great Atlantic current so strong.

Atlantic current so strong.

Before noon on last Monday the ocean, almost due east from Cape Race. Newfoundland registered 70½ degrees and the air 73½. How strong was the force of the Gulf Stream did not come to Captain Kasmpff's ken until he found that the Deutschland was falling off in her hourly speed with the propellers working at their normal velocity.

With a smooth sea, the ship's speed of 80% knots dropped down during the

With a smooth sea, the ship's speed of 560 knots dropped down during the next twenty-four hours to 533 knots, and the water registered seventy-seven degrees, with the air at the same temperature. From Tuesday 16 Wednesday noon the Gulf Stream temperature and that of the air regented the maximum. It became uncomfortably hot on board of the liner, even to the passengers on deek, with the ship steaming westward at a twenty-two knot rate. Eighty degrees of the atmosphere was hearly equalled by the ocean, which was but one degree lower. There were times when the water temperature grouped a few degrees, but these were of short duration.

dropped a few degrees, but these were of short duration.

The big ship did but 536 knots with favoring weather up to noon of Wednesday, fully twenty-four knots behind her usual steaming. Up to midnight conditions remained practically the same, slithough the water temperature dropped to sixty-six degrees before the Gulf Stream was left on nearing Nantucket. Before midnight a maximum of seventy-nine degrees had been recorded again, with the air two degrees less.

less.

Before Captain Kaeungif bade good-bye to the tropical current he had found its full strength and the Deutschland made only 533 knots up to noon Thurs-day, when she was nearly abreast Fire Jaland

Island. "Never in all of my 359 voyages across "Nover in all of my 359 voyages across leading in the Atlantic as commander," and Captain Kaempin yesterday, "have I found the Gulf Stream so strong or so hot. I black top.

BIG LINER ARRIVED IN PORT LAST NIGHT

SMART PASSAGE

TREMONT MAKES

Capt. Garlich Says Japan's Supremacy in Orient Appears Certain.

After a smart, passage of thirteen days the Boston S.S. Company's big liner Tremont, Capt. Thomas W. Garlich, reached quarantine at 10 o'clock last night from Manila and Chinese and Japanese ports, and came up to the whart early this morning. The liner's trip was uneventful, good wearlier being experienced for the what

engers, including P. E. O'Brien But ior, British consular representative at Amoy, China, who, with Mrs. Butler and family, Miss Elizabeth King and Master Robert Barnes, are on their way to London by way of Seattle. Five saloon passengers landed here, Rev. W. A. Shaw, who has been touring India; Mr. and Mrs. H. L. Hall and two

Wong King Chin, Mrs. Wong and two children, and Miss Wong Hon, Chinese second class passengers also anded here with 8 Chinese and 5 Japmeso steerage passengers.

The Tremont called at Keelung, The Tremont called at Keelung, Yolch-kaichi and Formosa on her way from Manila. She brought 3,676 tons, measurement of cargo, of which 47 tons were landed here. The cargo was mainly made up of tea, matting and silk, and, while a small amount of freight for a vessel of the Tremont's size, was better than most of the Orivental liners have picked up on their voyages for the last few months.

In all probability the Tremont will be aid up at the Sound and will be in-spected by representatives of the Unitd States government before they tenof the Shawmut and sister ship as transports. Should the re-port be favorable it appears certain that the government will purchase the vessels. The Inveric and another Welr steamship will replace the two yessels temporasily on the Oriental service.

Capt. Garlich, of the Tremont, is o he opinion that the Japanessupremactore long, secure maritime supremactor of Griental waters. To a Times re porter to-day he stated that the Japan porter to-day he stated that the Japan-cae flag was fast becoming predomin-ant in Oriental ports. Where European and American vessels a few years ago handled the traffic with practically no competition on the part of the Japan-ese, the tables have been turned. Whatever port a vessel visited the Japanes

ever port a vessel visited the Japanese flag was waving from the mast of a modern, or comparatively modern, steamship and the most noticeable feature was that the Japanese vassels were getting the business.

Capt, Garlich does not think that the Chinese boycott which was directed against Japanese vessels following the Tatsu Maru "affaire" will last very long. He credits the Japanese with business acumen which will enable them to circumvent the hosility which has been shown to them in the souththem to circumvent the hossility which has been shown to them in the southern Chinese ports, and, while admitting that the boycott has done, and is attill doing, a great deal of harm to the Japanese trade, he thinks that the back of the boycott will soon be broken.

The Shawmut lett for the Sound at 11 o'clock this morning. clock this morning.

RECALLS TERRIBLE

MARINE CATASTROPHE

Rev. W. J. Ancient, Who Has Just Died, Was Hero of Atlantic Disaster.

Halifax, N. S., July 27.—The death courred last week of the Rev. W. J. Incient, diocesan secretary of Nova foctia. He was with the feet in the Trimean war. Mr. Ancient was statused it Townster I Prograte the time of Crimean war. Mr. Ancient was sta-tioned at Terence Bay at the time of the wreck of the White Star steamship Atlantic, on April 1st, 1873, and was the means of saving a number of lives. He came to Halifax shortly afterwards and became rector of Trinity church, subsequently he was appointed to the office he held at the time of his death,

The death of the Rev. W. J. Anglent recalls one of the most terrible marine disasters in the history of the Canadian seaboard—the wreck of the White Star steamship Atlantic on the rocky coast at Prospect, N. S., on April 3rd, 1873, Westward bound, with more than nine hundred souls on board, she ran on the rocks about two miles from where a monument has since been exected. a monument has since been erected, and amid the fearful scenes which foland amid the fearful scenes which fol-lowed, 562 persons lost their lives. As the work of recovering the bodies pro-gressed, it was found that owing to their great number burial ground could not be found along the bare rock ledges near at hand. Then it was that the little churchyard at Terence Bay was tendered for the purpose by the rec-tor, the Rev. W. J. Ancient, whose work of rescue on the day of the dis-aster has enrolled his name forever in the glorious annals of self-forgetful-herolsm interwoven with the record of disasters of the sea. herolsm interwoven with the record of disasters of the sea.

At the conclusion of the ceremony of

At the conclusion of the ceremony of unveiling the monument, some yours later, Mr. Ancient told of the fearful disaster and threw some light on his rescue of Mr. Firth, the ship's chief officer, and one of the most thrilling ventures ever made by one man to save the life of another.

After recounting his difficulty in se-uring a crew of four men to row him out to the wreck, where the last un-ortunate man could be seen clinging in the rigging—the reluctance arising no but .. because thought his plan of succor suicidal "The crew now asked what I wanted to do, and I replied, 'Get on board the steamer.' For some time they re-

fused to put me on board, telling me that if they did so it would cost me

that if they did so it would cost me my life. However, when they saw me taking off my coat and boots and pre-paring to jump overboard and swim the rest of the distance, they agreed to put me on board, saying if I was drowned it would not be their fault. I inswered them that I would not hold them responsible for the consequences, and told them to pull out shead of the and told them to pull out ahead of the vessel, and as soon as we struck the eddy to lay in their port care and back the starboard ones. This swept the boat round the bow close to the fore-chains, when I jumped and caught sore-chains, when I jumped and caught a rope hanging over the ship's side and climbed on board. As soon as I reached the fore-rigging I discovered that the mode of rescue that I had planned, namely, getting a rope and carrying it with me up the mizzen topmast stay, was impossible, because each sea which struck the ship shook her to such a struck the ship shook her to such a degree that the masts sprang and have been sent flying into the air.

After a brief survey of the conditions
I hit upon the following plan: I went After a brief survey of the conditions I hit upon the following plan: I went up the main rigging and secured a rope long enough and strong enough for my purpose and secured one end to the foremast davit, just abaft the main rigging, and then taking the coil over my left arm, ran along the top-gallant rail to the next davit, and throwing a clove hitch over this davit, hauled the rope taut so as to form a man-rope by which to return with my man. After this the real difficulty began, because I was going down hill all the time had healer seas had to be met; but by watching my opportunity and making watching my opportunity and making a run between the seas and then puta run between the seas and then put-ting the bight of the rope around me and hitching it to the davit when I saw danger, I was able to reach the last davit and secure myself. But I found it impossible to reach the mizzen rigging, because the water was washing backwards and forwards with such force that no man could run the rail dio-Telegraph.)
noon—Clear; wind
leter 30.26, temper.
ship Katanga, at
bowline around him, and I took a turn a ture 57. Out, steamship Katanga, at 8 a. m.; ateam-schooner Washington, at 9 a. m.; a four-masted schooner, towpig, at 9:30 s. m. Inward, steamship
Watson, at 8:10 a. m. Outside, towing
in, a ship. in, a ship.

Estevan, July 28, noon—Clear; light south wind; barometer 30.36, temperature 58. Sea moderate. No shipping.
Pachens, July 28, noon—Partly cloudy; wind west; barometer 30.16, temperature 60. Light swell. Leebro left, bound up-coast, at 10:30 a. m.

Cape Lazo, July 28, noon—Citation of the coal as quickly as possible after ame down 1 took in the slack. But, being 50 benumbed with the cold, he could not move quickly, and before he reached the rail a sea carried him away; but I had him safe by the rope for the could and as the sea receded he struck his legs somewhat heavily against the rail. came over it helped me to lift him of the rail, and leaving him lashed that davit, I ran on to the next, am waiting my opportunity, told him teast off his lashings and I took a turning the rail of t cast off his lashings and I took a turn over the davit at which I was staiding so as to hold him if he sipped, and then he walked along the raif, holding on to the man-rope while I took in the slack of the rope, and so I got him stage by stages. When I got him to the fore-rigging I called the beat to repeat the operation by which they had put me on board, and, putting a rope around Mr. Firth, I lowered him over the side, and as the boat came alongside, dropped him in. The men then landed him, and he was taken to Mr. Clancy's and put to bed. The boat then came off for me and landed me, after which I returned home, got on dry clothes and went back to look after the sufferers."

Told with no attention to the heroic side, it all seems simple enough, but

side, it all seems simple enough, but it is when it is remembered that it was performed in cold which alone

time that the full import of the rescue is realized.
Others who took part in the ceremonies were: The Rey, A. F. Denith, the present rector of the little seaboard parish, and the Rey, Dr. Armitage, rector of St. Pau's church, Halifax.
The monument consists of a handsome obelish of Nova Scotle granite, standing eight feet high, with a marble

train. A V-shaped tucked Kimons bodice with transparent yoke and

high on left side, laced three inches,

dged with narrow lace and gold but-

tons. Pale pink silk stockings and

tlemen have you been to Pantages this

week?

The first Directoire gown to appear in public in Victoria afrived from Seattle yesterday and is at Pantages, worn with becoming modesty by a lady who appears in a musical sketch and is attended by a stage lover with the usual voice and trimmings. The Directoire dreas is adorned with a loop on the train which can be swung over the arm when necessary to carry it over the mud. To a man it looks a kind of dressing gown effect, only there are no cords round the waist.

time of dressing gows effect, only-there are no cords round the waist. There are other things round at Pantages this week also. Tony Johns ston has some great little trained dogs and if you have seen trained dogs be-fore, these are different. The Trav-

fore, these are different. The Travesty Minstrel Artists have a joke and three songs. The Great Powell has an fllusion trick that he does not tell how he does and everyone goes home wondering, after they have seen the new moving pictures which, this week, are good. Harry De Verra has a new song "Just Some One," and the audience are invited to join in the chorus.

THE POLLARDS ARE

STILL VERY POPULAR

Night Drew Good House.

The Pollards, who for many years have been a great attraction in this city, made their first appearance for the season at the Victoria theatre last evening. The company is changed considerably from what it was last year only a few of the leaders that were then with the company still having a place.

plete. In the role of Hilarius the inventer, Teddle McNamars, a favorite of other rears, appeared to advantage.

Preddle and Johnnie Heintz supported him in the comic characters and filled a being parts well also.

Perhaps the most attractive feature was Miss Merie Pollard, a pretty little maiden who took the part of the daughter of Hilarius. In company with Miss Lily Bull as Laureales she was very prominently before the audie and acquitted herself admirably.

There are a number of interesting specialties introduced. One of the most amusing was the rendering of "Walts Me Around Again, Willie," where the walts is carried to a most amusing extent.

The company throughout is a very wood one, the ther that they are children being forgotten at times entirely so perfect is thely stage work.

Last evening the popularity of the company was shown by the large attendance, the theatre being filled. This evening the Belle of New York, an old faverite, will be given. this week? Pale gray voile, lined with silk, cut Princess style with a long

TRIBUTE TO VICTORIA'S **ALLURING BEAUTIES**

"Canada possesse two pillars of strength and beauty in Quebec and Victoria," writes Rudyard Kipling in the Morning Post. "The former ranks by herself among those mother cities of whom none can say 'this reminds me. To realize Victoria you must take all that the eye admires most in Bourne-mouth, Torquay, the Isle of Wight, the Happy Valley at Hongkong, the Doon Sorrento, and Camps Hay, add reminiscences of the Thousand Islands, and arrange the whole around the Bay of Naples with some Himalayas for a background.
"Real estate agents recommend it as a little piece of England, the Island on which it

mend it as a little plee of Eng-land—the island on which it stands is about the size of Great Britain—but no England is set in any such season, so fully charged with the mystery of the larger ocean beyond. The high, still twilights along the beaches are out of the Old East, just under the curve of the world, and even in October the sun rises warm from the first Earth say a ven in October the sun rises warm from the first Earth, sky and water, walt outside every man's door to drag him out to play if he looks up from his work; and though some oth-er cities in the Dominion do not suffice materiated. quite understand this immortal mood of Nature, men who have mood of Nature, men wire in made their money in them go off to Victoria, and with the zeal of

The street railway men, when they undertake any outing, carry it through with commendable energy. On Thursday the third annual pionic under their auspices will be held at Sidney park. For the event a spiendid programme has been prepared, and everything will be done to make the day a pleasant one. Prizes for all kinds of events are being offered and the day should pass off most pleasantly.

The train service to Sidney by the V. & S. has been arranged to enable those attending to select their own hours. Trains will leave Victoria at 8 a. m., 1045 a. m., 129 p. m., 4 p. m. and 7:15 p. m., and returning will leave listors to City Tell of Conditions in

CANADIAN RAILWAYS

GOOD INVESTMENT

Opening Entertainment Last London Investors Given Advice , by Daily Report.

> Good news continues to come to hand to cheer the holders of Canadian Pacifics and Grand Trunk securities, says the London Daily Report. The advance in values has not yet commenced in sarnest, but it really cannot now long be delayed. On all sides we hear of the increasing prosperity in the Dominion. At the Canadian Pacific works at Montreal several hundred men have recently found employment, and more are to be taken on. At autraordinary harvest is expected, and the railway convest is expected, and the railway comly found employment, and more are to be taken on. Air extraordinary harvest is expected, and the railway companies are making preparations, to move the bountiful crops which appear in prespect. At the Grand Trunk work, shops a large amount of new rolling stock has been manufactured, and the officials entertain no doubt of finding work for all its employees. Grand Trunk junior issues, in anticipation of the bumper takes in the late autumn, should steadily appreciate, and those who may be speculatively inclined might do worse than accept the hint siven.

The reports of the three provincial governments, Manitoba, Saskatchewan and Alberta are to hand. They show and Alberta are to hand. They show a wheat acreage of 5,531,120 this year, against 5,015,000 last year, while the Northwest treath Desless Association; estimate 19 even more favorable, and suggests that 5,707,520 acres will be available. In making comparison with last year it must not be forgotten that the figures for that period include a considerable quantity of land that was ultimately abandoned owing to the frost having destroyed the crop. The acreage of all kinds expected by the government departments is 9,384,408 this year, against 8,337,566 last year an ingovernment departments is 3,384,08 this year, against 8,327,566 last year—an increase of practically a million acres, which must mean an enormous gain in traffic to the railroads. This increased freightage will commence to affect earnings about the end of this month, and will be most marked as we enter the autumn period, and there are, we think indications that the time is althink, indications that the turn is al-

8 per cent., compared with a decrease of 12 per cent. in the second week, and of 12 per cent, in the second week, and 20 per cent, in the first week—an improvement which suggests a larger traffic movement in the older provinces, and greater activity in the industrial centres. The Canadian Pacific gross earnings have so far sliewn only a slight improvement, but the Canadian Northerns show less shrinkage, and the traffic managers in the Dominion are inclined to the belief that earnings generally will now begin to improve By the end of August they expect gross earnings to be nearly on a parity with last year. As operating expenses will then be on a scale lower than hat year, and as materials have been cheapened there is no reason—in view of the harvest—why the Canadian railway year, July 1st, 1908, to June 30th, 1908, should not be the best in the country's his-July 1st, 1908, to June 30th, 1908, should not be the best in the country's history. This being the case, there is certainly a margin for considerable improvement in Canadian railway securities. Canadian Pacifics at 187 compare with the highest of 2024, last year, 208 in 1906, and 1874, in 1906, and 1874 in the outlook more satisfactory than at the present moment. The present price of Canadas is within two or three boints of the lowest quotwo or three points of the lowest quo-tation that was recorded for the shares in 1906.

in 1906.

The contrast in the case of Grand
Trunk issues is even more striking.
Trunk ordinary stock is quoted at 18%,
which compares with the highest of
31 % for 1907, 29 1-6 for 1905. In 1906 the 33 % for 1907, 29 1-6 for 1905. In 1906 the lowest quotation was 25 1-6, and in 1905 it was a point, higher than the market price of to-day, The third prof. are now quoted at 6 %, a price which has been exceeded in each of the six years from 1902. In 1907 the extremes were 57 9-10 and 76 1-15; in 1906 60 1-6 and 7914; in 1905 66% and 62%. The first prof. is now quoted at 101 %, whereas last year the extremes were 110 and 123%; in 1906 114% and 123%. The second preference are now 91%, which the stock compared with extremes by 100% and 114 and by 105% and 115 for 1906.

E. Priest, of Nanalme, a well, a mining engineer, is in the city, a at the King Edward.

Vancouver, B. C., July 28.—An aged Chinese vegetable gardener, who went by the name of Jim, was found murdered late yesterday afternoon at South Vancouver. He, had been killed by a blow from an axe, and his head was almost hacked off by repeated blows.

He had a fight on Sunday with another Chinese, whose name is unknown, but whom the police believe killed blim.

EXPANSIVE PLANS BY DOMINION COPPER CO.

Aerial Bucket Tram Feet is Being Arranged—Daily Output.

ager of the Dominion Copper Company, was up from Boundary Fails on Thursday. He was most enthusiastic as to the results of operations at the smelter. The new furnace has been years. Phoenix, July 27.-P. F. Rossa, manter. The new furnace has been run-ning without the slightest interruption ning without the slightest interruption since being blown in, and is now consuming over 600 tons daily. On Wednesday over 650 tons were treated. The furnace has a capacity of 750 tons per day, but after a series of tests the best results in value can be obtained in treating from 600 to 650 tons daily. Plans are now being worked out for the feeding of the two smaller furnaces by huckets, oversiting on an exception.

by buckets, operating on an aerial tram from the ore bins to the furnities; tram from the ore bins to the furnaces; the latter being fed by hand. "It is the intention to instal the aerial tram instead of the trackage system, as a much more economical plan of handling the ore." said Mr. Rossa. It is thought that better results can be had from systematic distribution of the flux. The new bucket tram will also have an advantage in carrying the Cumberland, July 20th.

I, Samuel Stockand, of Cumberland.

B. C., miner, make oath and say:

1. That William Hunter, deceased, in my presence, claimed that he was the first white child of white parents born of Vancouver Island.

thought that better results can be had from systematic distribution of the law systematic distribution of the new bucket tram will also have an advantage in carrying the complete charge ready for smelting on the new systematic distribution of the new bucket tram will also have an advantage in carrying the complete charge ready for smelting engineers.

M. M. Johnston, the consulting engineers are new systematic distribution of the new bucket tram will also have an advantage in carrying the complete charge ready for smelting. M. M. Johnston, the consulting engineer, has also figured on the aerial tram as an improvement to the proposed electric feed.

An agents:

but Mr. Rossa stated that no definite steps had been taken in the proposi-

in the vast unexplored section of the Arctic ocean lying above Alaska and corth of Banks Land. The region comprises some 150,000 square miles, and has always been described as a sea of ice. In some respects the result of the expedition is disappointing, though valuable information and experiences valuable information and experiences as to the conditions of the Ice floes and drifts that travel in the Beaufort Sea were obtained.

Soundings of 400 Fathoms. "In my sledge journey of 533 nautical miles in sixty days, of which 361 miles were over pack ice, Mr. Leffingwell and myself discovered."

the first day out the pickaxes were in constant use, and we could not have advanced without them. In places the ice was very much broken, and we had often to use an extemporized raft to

Not content, with escaping the periss of the Agetic, he came home by the original method of tramping alone from property of the Agetic, he came home by the original method of tramping alone from Plaxman Island round the coast of Alaska to the Yukon, a journey which occupied nearly, six months. That, as Capt. Mikkelsen, a Dane who speaks the English language fluently, says, was merely a "alde show" and scarcely worth mentioning. He regards it much in the same way as a street-bred man might look upon a walk from London to Brighton.

And now he wants to get back to the flow ice and the eternal snow, and the travelling at three miles in ten hours (which is often the speed limit in the Arctic), and the short rations, or no rations at all. Of such stuff are explorers made—or born.

When I interrupted him (writes a Daily Chronicle representative) Capt. Mikkelsen was engaged in putting the finishing touches to the book describing his adventures which Mr. Heinemann is to publish shortly, and which will be fully illustrated with photographs—many of them of unique interest.

"No, we weren't looking for any piece, said the young explorer with a laugh. "As you are no doubt aware, the chief aim of the expedition was to determine whether or not land exists." See the chief of our camp who must appear to have been able to determine whether or not land exists in the vicinity of our camp who must appear to the property of our camp who must appear to the property of our camp who must appear to the property of the reach to first our camp who must appear to the first of the most of the most of the most of the most of the wood, how. "I wasn't quite out of the wood, how. The reach to call the reach to close up. The former happen can be reached to call the reached to call the reached to the reach to close up. The former happen can be reached to call the hard of the send of the wasn't go of the harbor, and as well. The camp

MAIN FEATURES OF **IRRIGATION CONGRESS**

Vancouver Murder Bears Evi- Visitors to Vernon Will Be Given Opportunities of Seeing B. C.

Vernon, July 27.—A unique feature in connection with the second annual convention of the Western Canada Association to be held if Vernon during the week from August 10th to 17th, will be the special arrangements that are being made to give the visitors every opportunity to see the most interesting section of the country.

On the way to Vernon on the 10th of

On the way to Vernot on the 10th of August a stop of two or three hours will be made at Armstrong, where the oftigens will provide teams and drive the delegates through the district. One special reason for the stop at Armstrong will be to impress upon the delegates the strong local feeling that immediate steps should be taken in the direction of forest preservation on acdirection of forest preservation on ac-

ion of water supply.

Monday afternoon and evening and Monday afternoon and evening and Tuesday wifi he devoted to business sessions at Vernon, a most comprehen-sive series of papers and addresses hav-ing been secured, and must important discussion arranged for.

On Wednesday the delegates will be driven over the trigetion system of

driven over the irrigation system of the White Valley Power & Irrigation Company, incidentally Company, incidentally passing, the Coldstream ranch, Lord Aberdeen's fa-

Coldstream ranch, Lord Aberdeen's fa-mous fruit property.

For Thursday, Friday and Saturday steamers have been chartered from the C. P. R. for an excursion down Okan-agan lake, and arrangements have been made to drive the delegates over the irrigation systems at Kelowna, Peachland, Summerland and Penticton.

This opportunity to combine business This opportunity to combine business with pleasure, and visit one of the most interesting sections of British Columbia, while also taking part in a convention, which has for its object the furtherance of one of the most important movements ever started in Canada, is an altogether exceptional one, and no one who is eligible as a delegate can affect a section. one who is eligible afford to neglect it.

\$750,000 HOTEL FOR VANCOUVER

Vancouver. July 27.—Interests identified with the principal owners of the new Washington hotel in Seattle arc. It is understood, planning to creet a paintial hossisty in Vancouver. James A. Moore is gredited with being the leading spuid behind the proposition. There has been no little mystery connected with his recent frequent visits to this city. Mr. Moore, it has now transpired, has been looking over the city for a suitable site, half a dozen transpired, has been looking over the city for a suitable site, half a dozen of which have been carefully inspected. It is understood Mr. Moore favors an up-town location. The proposed total transpired that Catarrhosone will at once relieve and cure Hay Fever. All druggists sell Catarrhozone. Two months' treatment \$1.00.

www.phatich last August, I determined to send the crew home in her, intending myself, crew home in her, intending myself, with Mr. Leffingwell and one man who was to remain behind, to make another extended sledge journey north in the spring. However, be got homesick, so Mr. Leffingwell and I were left alone. He, the sugveyor and geologist to the expedition, was able to continue his work, but there was nothing that I could usefully do, so I determined that as soon as the ice bore I would set off overland and get back to civilization. "I started from the camp on October 16th with a sledge and ten dogs, and

were over pack ice, Mr. Leffingwell and myself discovered deep soundings of 400 fathoms—and no bottom—which indicated that we were beyond the edge of the continental shelf. This deep water w s very much closer in than we expected. It was a pretty nanty trip, and we had to kill most of our dogs to feed the others. We experimented with different foods to see what were the best concentrated rations, and we got down to thirty ounces per man per fay.

The travelling was very bad, either soft snow, or heavy pressure ridges over which we had to hew a tead. From better than nothing at all. However, which we had to hew a tead. "I started from the camp on October 16th with a siedge and ten dogs, and 680 pounds of provisions. The dogs eat a lot, so that I hadn't rations for more than a week or two. I soon got into frouble with the dogs. The sharp ice cut their feet to pieces, and I had to. when I was just about at the end of my tether I came across an Eskimo en-campment, and was able to buy some more dogs, and get food of all sorts-blubber, seal meat and rotten fish.

have been spent in the Arctic, for he has taken part in four important expedictions. In the last the Anglo-American, which was jointly financed by the Royal Geographical Society and the Royal Geographical Society and the kindred organizations of America—he has suffered innumerable hardships, and at one time was supposed to have perished with his companions in a hazardous sledge journey.

Not content with escaping the perished with his content with escaping the perished with a man sixting was easier. I came down through the Yukon district—the gold country and reached Valdes on Prince with the with escaping the perished with a man sixting was easier. Synopsis of Canadian Northwest Homestead Regulations.

Any, even numbered section of Domin-ion Lands in Manitoba or the Northwest Provinces, excepting 8 and 26, not reserv-ed, may be homesteaded by any person the sole head of a family, or mais over 18 years of age, to the extent of one-quarter, section, of 25 acres, more or vess. pplication for more against the must be made in person by the applicant at the best made in the local agent or sub-Agent, forty by the local agent or sub-Agent, forty by the father, mother, son, daughest by the father of an intending homesteader.

An application for entry or inspection made personally at any Sub-Agent's office may be wired to the local agent by the Sub-Agent, at the expense of the appli-

cant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by man. In case of "personation" the entry will be summarily cancelled and the applicant will forfict all priority of claim. An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

has been disposed of.

A homesteader whose entry is in good standing, and not liable to cancellation, may, subject to approval of Department, relinquish it in favor of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to ingitution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection thus state in what passituates the homesteader is in default, and if subsequently the statement is found to be incorrect in material

particulars, the applicant will lose any prior right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled. DUTIES. A settler is required to per-form the conditions under one of the foi-

form the conditions under one of the fol-lowing plans:—
(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.
(2) If the father (or mother, if father is deceased) of a homesteader re-sides upon a farm in the vicinity of the land entered for by such-homesteader the

(a) If the settler has his permanent residence upon farming land owned by him in the 'tichsidy, of his homestead, the requirement may be satisfied by residence upon such the settler must give six months' notice in writing to the Commissioner o' Domin-

ion Lands at Ottawa, of his intention to SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. No more than 2,500 acres shall be leased to one individual or company. A royatty at the rate of five cents per ton shall be collected on the merchantable coal mined. QUARTZ.—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 1,600 x 1,500

feet. The fee for recording a claim is \$5.
At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at U per arts.

To put to f a per cent on the sayment of a per cent on the sales.

Placer mining claims generally are 160 feet square; entry fee 8, renewable veerful.

per annum for each fille of river leased.
Royalty at the rate of 25 per cent, collected on the output after it exceeds 10,000.

Deputy of the Minister of the Interior,

OAK BAY AGAIN ASKS AGREEMENT

WATER QUESTION ONCE MORE BEFORE COUNCIL

Reeve Oliver Wants the City to Sign Undertaking to Supply Municipality.

Oak Bay council is apparently etermined to worry the city council until the latter body accedes to the request of the former for an agreement inding itself to supply the municipal ity with water. Last night the question ame before the city council in three ter from the Oak Bay council entreating the city to grant its request, and informing the city that it no longer held a reserve on the waters of Sooke lake, but that that reserve was for municipal purposes generally, and also advising the city to buy water by the gallon from the Esquimalt company and bonus that company to so exped-ite matters that it would be in a posi-tion to deliver water next year; then came a petition from sixty residents of Oak Bay praying the city to enter into an agreement such as suggested, and following this was an address from Reeve Oliver in which he endeavored to convince the members of the city coun-

convince the members of the city coun-cil that it was only right that they should sign an agreement to supply Oak Bay with water. After ult this the matter stands pretty much where it. did, although Oak Bay will be asked to submit draft agreement setting forth its desires. The strong opposition on the part of the members of the city

the government reserve of the Sooke lake and Highland district watersheds. This reserve formerly was solely in favor of the city of Victoria, but has now been altered and extended so as to become a reserve for municipal purposes generally, and so as to give to this municipality rights similar to those of the city of Victoria in the water of these districts.

"In these circumstances we would to a stempt was in the same was to be a stempt was in the same was to the city of Victoria in the water of these districts.

"In these circumstances we would to a stempt was in the same as the people of Victoria first.

"In these circumstances we would to a stempt was in the same as the people of Oak Bay were entitled to the same as the people of Oak Bay were entitled to the same as the people of Oak Bay were entitled to the same as the people of Oak Bay were entitled to the same as the people of Oak Bay were no worse off in regard to a water supply than the people of Oak Bay were entitled to the same as the people of Oak Bay were no worse off in regard to a water supply than the residents of the city. The council's duty was to the people of Victoria first.

"In these circumstances we would in the victoria first." "At the same time that we ask you for this information we would like to

to know what steps, if any, you would propose to take in conjunction with the other municipal bodies interested. for the utilization of the waters con-

to the utilization of the waters contained in this reserve.

The council of this municipality respectfully request the council of the city of Victoria to immediately give the proper statutory notice requiring the Esquimait Water Works Company to supply water to the city of Victoria under the obligations and on the conditions imposed on them by statute, and at the same time to offer the said company a sufficient bonus to ensure the necessary pipes being laid at the earliest possible date so that a repetition in 1308 of the present dangerous and unbearable conditions may be avoided.

dangerous and unbearable conditions may be avoided.

"This council in making this request have not knowingly discriminated between rival schemes, but have suggested the only remedy as yet made public that can possibly be in operation in 1909, and that, had the remedy

and William Fernie, with J. S. Floyd, municipal cierk, appeared, and with them came the petition. After it had been handed in and read the council adjourned to give the Oak Bay representatives a chance to address the meeting. This petition read as follows:

"To His Worship the Mayor and Board of Aldermen, Corporation of the City of Victoria:

"Gentlemen.—We, the undersigned, residenths and owners of land in the municipality of the district of Oak Bay, petition the council of the city of Victoria:

Ald. Fullerton remarked that that was the way the city's legal business was done.

Ald. Hall said he would like to drew

contentes,—We, the undersigned, residenths and owners of land in the municipality of the district of Oak Bay, petition the coupell of the city of Victoria. Oak Bay municipality of the district of Oak Bay as done, as a possible the same basis as regards water supply Oak Bay municipality accepting an obligation to supply Oak Bay municipality of the district of Oak Bay on the attention of the meeting to the strength of the attention of the meeting to the strength of the attention of the meeting to the sims of the strength o

was eqaully apparent last evening. In fact Ald, Henderson went further and said that the latest developments in the matter, particularly the letter from the Oak Bay-council just read, showed him, as nothing else could have done, the danger of the city entering into any such agreement as proposed, The matter was first brought up last evening by the reading of the letter from Oak Bay council in which, after from Oak Bay council in which, after as it was now doing by supplying watasking for an undertaking from the city to supply that municipality with the council of the letter from Oak Bay council in which, after as it was now doing by supplying watasking for an undertaking from the city to supply that municipality with the council of the letter from Oak Bay council in which, after as it was now doing by supplying watasking for an undertaking from the city to supply that municipality with the council of the letter from and as it had also done by a resolution passed some time ago. There was absolutely nothing binding in the resolution. What the people of Oak Bay wanted was something that would bind the city to supply them with water. The people of Oak Bay did not expect and in future years.

"At the same time that we ask you or this information we would like to the city to give them anything they did not have. All they wanted was to be treated the same as the people of Victoria.

Aid. Hall said it looked as though an attempt was being made in certain cuarters to stampede the city council into adopting a certain source of supply but he could say that the council was not golfg to be stampeded. In regard to Oak Bay's position he thought that the swell-ution of the council whorld be sufficient. If an agreement were entered into the city might at some time find itself in a bad position as a result, for, while he knew the present council of Oak Bay would not take advantage of the city, it was hard

take advantage of the city, it was hard to say what their successors might do. Mr. Oliver said that all they wanted Mr. Oliver said that all they wanted was a legal agreement that they could show intending residents to assure them that they were certain of a supply of water on the same conditions as the people of Victoria.

Acting Mayor Cameron-Have you ever stated in black and white what

quest have not knowingly discriminated between rival schemes, but have suggested the only remedy as yet made public that can possibly be in operation in 1909, and that, had the remedy not been absolutely obvious, the council would have hesitated to refer to it.

"For the reeve and council, signed Albert S. Floyd."

This letter was received and flied, and the Oak Bay council will be informed that the city has the matter under consideration.

Later in the meeting Reeve W. E. Oliver and Councillors S. R. Newton and William Fernie, with J. S. Floyd, municipal cierk, appeared, and with them came the petition. After it hed been had also drawn been had also and the came the petition. After it hed

were to draw up a draft agreement, but the council had not yet seen it nor had the barrister passed upon it. As far as he could see they were talking at cross purposes. If these was nothing else to be brought up he did not see the necessity for continuing the

see the necessity for continuing the discussion.

Mr. Oliver replied that the only reason he interfered was that the city barrister had informed him that Oak Barwould not get an agreement from the city such as asked for with his consent. This had taken his breath away for he had thought the agreement which had been drafted by the solicitors was to be signed and he had gone to the government and had had the terms of the Sooke reserve changed as noted in the letter read earlier in the evening. He had not asked the council to buy Goldstream, He was a shareholder in that company but had not allowed that fact to influence him in his public duties. What Oak Bay desired was that the city should make a demand upon the Esquimatt company to fuffil its statutory obligation to supply the city at 6 cents per thousand gallons. The reason why Oak Bay favored this step was that if the city developed Sooke or bought Goldstream Oak Bay would have to pay a portion of the cost, whereas if the city took water from the Esquimat company, by the gallon there would be no capital expenditure necessary. He was acting expenditure necessary. water from the Esquimait company by the gallon there would be no capital expenditure necessary. He was acting entirely in the interests of the munici-posity of Oak Bay in the matter. Ald Henderson asked why Mr. Oliver proposed Goldstream when the city was spending money on Elk lake and would have that source of supply ready part year, when there would be are

would have that source of supply readynext year, when there would be an
abundance of water for both the people of Victoria and of Oak Bay.

Mr. Oliver replied that to be frank
he had very little confidence in Elk
lake as a source of supply.

Ald. Henderson—That is the very
thing that changed my mind. If you
had an agreement you would have a
say in such matters. I do not know
how an agreement could be drawn to
prevent it. Perhaps you could dray

Mr. Oliver-1'it be delighted to do so.

Aid. Pauline said he favored the giv-ling of an agreement to Oak Bay on this matter. The city would have to sup-ply Saanich and Oak Bay anyhow and might just as well face the Oak Bay With this the delegation withdrew

and after some further discussion a resolution was passed that the petition lie on the table and that Oak Bay be asked to submit a copy of an agree-ment such as it desired.
